NEW England Mutual Life Ins.,
Of Boston, Mass., chartered in 1843.
Capital and accumulation, \$650,000.
THIS Company is one of the oldest, and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security to all conceivable circumstances, for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium.
The directors are required to be peculiarly interested in the company, and to give their personal attention; and bonds of sufficient security are given by its officers for the faithful performance of their duties. Insurance may be effected for the benefit of the wife, which is secured beyond the reach of the husband's creditors; and creditors may insure the lives of debtors.

WILLIAM PHILLIPS, President; R. F. STEPHENS, Sec'y; O. P. ROBINSON, Examining Physician.

Highly Important to Farmers.
THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST.
THE MADISON MUTUAL,
LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns; live stock, &c., from one to five years, at lower rates than most other responsible companies. All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses only your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the losses on farm property, barns, barns, mills, shops and such like property, in this country, which such property is rejected positively, by LETTING THEM ALONE.

Parsons, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar's loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the company.

CELEBRATED WORMWOOD CORDIAL.
THE subscriber in introducing this valuable temperance beverage, would respectfully call the attention of the public to the fact, that it is prepared from green Wormwood, an herb that grows luxuriantly in the New England States, the medicinal qualities of which for the regulation of the stomach and blood, cannot be equalled by anything ever used. It is a sure cure and preventive of Fever, Ague, Dyspepsia, Diarrhea, and all diseases arising from impurities of the blood or inaction of the stomach. Try it.

THIS Company is one of the oldest, and among the most prudent and successfully conducted in the country. The principal object in conducting its business has been to provide perfect security to its policyholders, and to return to the insured the surplus at stated periods, and strict economy in its management.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium.

The directors are required to be particularly interested in the company, and they give their personal attention; and bonds of sufficient security are given by its officers for the faithful performance of their duties. Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of her husband's creditors; and creditors may insure the lives of debtors.

Highly Important to Farmers.
THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST.
THE MADISON MUTUAL,
LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than for other responsible companies. All losses promptly paid at the office as soon as proof is made thereon.

We believe to be for the interest of the farmers to insure their property, and we believe that no farmer who has any other property, consequently you will have no losses—only your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon farm property, mills, shops and such like property. In this company all such property is insured, and insured by LETTING THEM ASSESS.

For the purpose of your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the other responsible companies we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the company.

A STORE FOR SALE OR TO LET.
THE STORE and a Lot of ground known as Lot No. 8, on Rock No. 1, in the village and township of FULTON, Rock County, on the Catholic near its confluence with Rock river, 11 miles northwest of Janesville.

The building is well calculated for a country store, being 28 feet front by 62 feet deep, and finished of above into convenient apartments either for a family or for offices, all in good condition.

The whole has been occupied for three years past by Messrs. T. E. and F. G. Green, as a store and dwelling, and being in the best of repair, and immediately opposite the Gratiot, is considered the best location for business in the village. The lot is two rods front by about seven rods deep.

This property will be sold or let on reasonable terms, and possession given immediately. For particulars enquire of
MILES & SATRE, Fulton, so enquire of
LEVI ALDEN, Janesville.

ANOTHER ARRIVAL.—Yesterday the telegraph gave an alarm that a report was ready for us, but failed to deliver anything as soon as it was announced that we were ready for it. A private dispatch to the Milwaukee Sentinel, dated Sept. 4th, reports the arrival of the steamship Pacific, with news of a decline in breadstuffs, flour having fallen 6d, wheat 3d, and corn 6d. The capture of Bismarck is confirmed. The Austrians were entering Wallachia. The cholera was making awful ravages among the troops, the allied army having lost 12,000, and the Russians a still greater number. We suppose the report we failed to get contained the particulars of the events indicated by this dispatch.

The Pennsylvania free democratic convention met at Harrisburg August 30th, and passed resolutions withdrawing the state ticket, and recommending Judge Pollock, the whig candidate, for governor.

The whigs of New Jersey are preparing for such a union as their brethren in many other states have effected. This gives great concern to the railroad monopoly, Nebraska, Com. Stockton "democracy" of that state, and their wallings are audibly given through their press. To one of these, which assumes to "know the people of New Jersey" and "feels confident that hundreds of the old fashioned Clay whigs of the state, will sooner vote the democratic ticket at the next election, than lend their countenance to the mad schemes of abolition fanatics," the Albany Journal well replies:

"The mad schemes of abolition fanatics" must mean the election of members of congress pledged to vote for the admission of no more slave states, as this is the only "scheme" New Jersey whigs have yet entered into. If this surprises the Democrat, it may as well prepare to be frequently astonished this fall. For upon that platform the whig party in all the northern states is steadily taking ground, without, so far as we hear, a single dissenting voice.

It is ill-timed to the "old fashioned Clay whigs," who agree in Mr. Clay's declared determination "never to vote to extend slavery over a foot of territory where it does not exist." If the "democracy" can find any other "fashion" of "Clay whigs" they are welcome to them, in New Jersey and out of it.

CORRECTION.—Printer's devil, with a pull at his forelock, and scrape of his hoof, begs pardon of his friend, the "Book Items" man, for a "lapus lingua" of the type yesterday.

The sentence referring to the "Nile Notes of a Howard," compared with B. T.'s book, should read as follows:—"In reading the fanciful and poetical philosophical," etc., etc., instead of "this fanciful," etc.

There were some other inaccuracies, all of which will be avoided, the devil aforesaid hopes, when he becomes better acquainted with the geography of the items man—which reminds us, that the supply of the books aforesaid at Sutherland's, is vanishing like plumb cake before the appetite of boarding school girls home in vacation. Verbum sap.

The first term of the Collegiate Institute will commence this Wednesday morning, at 10 o'clock, with appropriate exercises. Remarks will be made by different persons in regard to the educational interests of this city. Citizens generally, are invited to be present.

Senator Douglas is reported to have engaged to speak in Milwaukee about a fortnight hence.

The boring in the Artesian well at Belcher's sugar refinery, St. Louis, has already reached the enormous depth of two thousand and two hundred feet. Thus far the search for pure water has been unsuccessful; but the work goes on. Belcher's energy and perseverance will endure until the centre of the earth is reached.

The Vermont election took place yesterday, and the Maine comes on next Monday. From both states we shall be grievously disappointed if good reports do not come.

R. R. EARNINGS FOR AUGUST.—The earnings of the M. & M. R. R., for the month of August, just past, are as follows:

Freight,	\$19,332 53
Passengers,	13,087 81
Total,	\$32,420 34
Earnings for Aug. 1853:	
Freight,	\$9,521 28
Passengers,	8,754 98
Total,	\$18,276 16

The earnings of Aug. 1854, show an increase of nearly 100 per cent. over those of the corresponding month of 1853.

MASS CONVENTION.—A convention of the Massachusetts assembly district assembled at the court house, Tuesday, Sept. 5th, under a call of the republican county committee, to appoint two delegates to the congressional convention to be held at Mineral Point on the 13th inst.

On motion, WM. M. TALLMAN was called to the chair and Chas. Holt appointed secretary. On motion, JOSEPH BAKER and JOSEPH A. SLEEPER were chosen chief delegates, and WM. M. TALLMAN and GEORGE H. WILLISTON as substitutes.

The convention then adjourned.

NOT BAD.—We clip the following capital hit from an exchange:

If you wish to keep your town from thriving, turn the cold shoulder to every young mechanic or beginner in business, look upon every new comer with a scowl. Discourage all you can; if that won't do, desert his work and rather go abroad for wages of his hind than give him your money. Last, though not least, refuse to patronize the villi ge paper. "Then go to seed."

FIFTH DAY.
MONDAY, Sept. 4th, 1854.

Conference convened at 8 o'clock, bishop Morris in the chair. The session was opened with reading the scriptures, singing and prayer, by B. yd Phelps.

The minutes of the last session were read, corrected and approved.

Bishop Morris presented a communication on the subject of a Biblical Institute, which was read and referred to a special committee.

A circular and exhibit from the Western Book Concern, was read and filed.

Rev. Mr. Poe gave an account of the condition of the Western Concern, also of the church suit, after which the following resolution was passed.

Resolved, That this conference fully approve the course of the agents of the Western Book Concern, in submitting the final decision of the painful controversy with the church south, to the supreme court of the United States.

The conference then resolved itself into a tract society. Quite a liberal contribution was made by the preachers, who pledged a large amount to be collected during the present year. After electing officers for the ensuing year, the society adjourned.

The conference invited the transfer of Chas. P. Bragdon from the New England, to this conference.

Delos Hale was received on trial.

The remainder of the session was occupied by business of but little interest to the public, so it will not be reported.

Various notices were given out, when conference adjourned with a benediction.

SIXTH DAY.
TUESDAY, September 5th, 1854.

Conference convened at 8 o'clock, bishop Morris in the chair.

The session was opened with reading the scriptures and prayer by Rev. Mr. Callender. The minutes of the last session were read, corrected, and approved.

Jesse Pardun was granted a supernatant relation.

Samuel Anderson, a Norwegian missionary, was continued on trial.

Robert Delap was continued on trial.

Conference then took up the question, who are received on trial:—Joel Howd, Peter Lang, Dwight Keddar, Harvey Orcutt, Alfred G. Cooly, Wm. R. Jones, Holver Gardner, O. B. Knudson, Stein Steinsen, Neals Olson, D. B. Anderson, Leander Hallack, Geo. F. Hilton, Horace B. Crandall, Lewis Bell, David O. Van Slyk.

The committee on education then made their report in part, as follows:

The committee on education then made their report in part, as follows:

I. In reference to the Lawrence university.

The committee represented the institution as in a prosperous condition, the number of students being 1 eble of that of any previous year. The building for the preparatory department is completed; the building for the college proper, a noble edifice, is in the process of erection, and will be, in part, ready for occupancy very soon; and steps are now being taken to erect a suitable building for the female department, which is much needed. Much has been done towards a permanent endowment for the university, and an able faculty has been constituted. The necessity of regarding this institution as exclusively the Methodist college of Wisconsin, and securing for it the undivided patronage of the conference and the church, was strongly impressed upon the minds of the ministers, and duly appreciated by them. In conclusion the committee recommended the re-affirmation of the following resolutions:

1st. Resolved, That the Lawrence university, located at Appleton, including both the preparatory and collegiate departments, is emphatically the institution of this conference, to the support of which we will devote our untiring energies.

2. That we learn with peculiar pleasure, through our board of visitors, of the successful efforts that have been made within the past year in raising funds, and in otherwise imparting maturity, vigor and usefulness to the institution.

3. That we have full confidence in the ability and integrity of both the board of trustees and the faculty of the university, and that we will use every suitable means to urge its claims and patronage upon the attention of the people of our respective charges.

4. That we concur in the recommendation of the visiting committee to the Lawrence University, for the appointment of Rev. J. S. Prescott as agent for that institution.

5. That each preacher in charge of circuits and stations shall preach or cause to be preached, at least once in the year, a sermon on education, at each principal appointment.

II. In reference to the North Western University, located about 12 miles from Chicago.

The committee recommended the adoption of the following preamble and resolutions:

Whereas, In the original application made to the Wisconsin annual conference for the appointment of trustees and visitors to the North Western University, the claims of the Lawrence University to the undivided patronage and support of this conference were expressly stated, and that neither men nor money should, in aid of said contemplated university, be sought within the bounds of this conference, nor should the trustees of the said Lawrence University in any manner be interfered with; and the co-operation of this conference in the appointment of trustees and visitors to the said North Western University was only asked for the purpose of le-

gally organizing the board, and preventing a delay which otherwise would have been unavoidable, before the charter could have been so amended as to enable them to proceed to action. And whereas the connection so established, and only intended as nominal, has, in the judgment of this conference operated prejudicially to the interests of the Lawrence University, both pecuniarily and otherwise, therefore

Resolved, 1. That the Wisconsin annual conference decline any further election of trustees or visitors to the North Western University.

2. That the North Western University having received the benefits of the above recited agreement, by the aid afforded in the organization of its board and otherwise, cannot now, in good faith, permit its agents to traverse our territory, either for the purpose of selling scholarships or raising funds for its endowment and support.

3. That we wish peace and an interchange of fraternal relations to exist between the Lawrence and the North Western Universities; but that the best way of securing that object, is for each to pursue its work within its own bounds.

Dr. Hinman, President elect of the North Western University, opposed the adoption of the preamble and resolutions; and proposed, as a substitute, that the agents of the North Western University be permitted to canvass the southern portion of Wisconsin for the sale of scholarships, with the understanding that the agents of the Lawrence University should have the privilege of doing the same thing in northern Illinois. In a speech of considerable ability and length he endeavored to show the propriety and mutual advantage of this measure. He contended, however, that the balance would be greatly in favor of the University at Appleton, as that institution had, in addition to its collegiate department, a preparatory department, and admitted students of both sexes; while the Chicago Institution had no preparatory department, and admitted only males.

He was answered by Dr. Cook, President of the Lawrence University, who, in a very able speech, proved the futility of Dr. Hinman's position, and exposed the sophistry of his argument—showing very conclusively that the nominal relation which this conference had sustained to the North Western University had operated very much against the interests of the Lawrence University—that it had given plausibility to the assumption, on the part of some of the friends of the North Western University, that this institution was the University of the Northwest—that Wisconsin belonged to them, and that the institution at Appleton was only a satellite or tributary to the Chicago College—that it had turned away into other channels more than ten thousand dollars which the Lawrence University otherwise might have received; and that if Dr. Hinman's proposition was accepted, it would in the end degrade the Lawrence University to a mere primary school.

After considerable discussion, among different members of the conference, the preamble and resolutions were passed unanimously.

The hour of adjournment having arrived, the session was closed with prayer, by Rev. Mr. Randall.

THE CHESTER FACTORY OUTRAGES.—SINGULAR DEVELOPMENTS.—A "Carson Temperance League" was formed last spring at Chester Factory village, in the western part of this state, and soon after it had commenced active operations the property of its members began to suffer depredations. The Methodist church was blown up, David Cannon's barn was set on fire, trees were extensively girdled, and various horses were found minus their appropriate dorsal appendages, or painted zebra-wise.

In this trait the officers of the League applied to the police of Albany, who sent to their assistance a couple of skilful officers, named Chamberlain and Voeburg. These men entered into the spirit of things, made free in the bar room, passed themselves off for sporting characters, denounced the Carson League, went to cock-fights, &c., and in a short time were considered by the suspected and unsuspecting parties there were enacting as "regular tramps." Chamberlain even went so far in his dangerous schemes, as to have a regular preconcerted set to with the secretary of the League, and was punished by fine for the assault. After this he was regarded by all not in the secret as the master spirit of the rum party, and as such frequently denounced by the staid townsmen.

At last Chamberlain was warned by his new found friends to leave the place, as they were about to blow up the secretary's grist mill. Chamberlain obeyed the request, but sent word to the League that on such a night flour might be expected to rise. A watch was accordingly set on the mill, and one man and a 25 pound keg of powder, with a fuse attached, were taken into custody; but the haul was not yet large enough, and the affair was kept still until the operators had recovered from their fright, and again commenced operations.

A few days since a descent was made upon the haunt of the gang, and eight persons named E. Hubbard, 3d, Otis Hamilton, B. L. Kingley, A. L. Richards, Lewis Gibbs, Rufus Case, John Gardner, and Albert Noon, were arraigned before a magistrate in Springfield, on complaints embracing each of the principal outrages committed in Chester. They were in high spirits when first arrested, but on learning the absurd deception which had been practiced upon them by their quondam friends, they became "quite chop-fallen." As many persons of standing are also under suspicion, who probably fear further disclosures, there was no difficulty in obtaining bail, and the accused are now at liberty, awaiting trial at the next term of court.

The Prairie du Chien Courier, an independent paper, but strongly inclined to favor the democratic side of politics when there is any possible chance of doing so, makes the following plain, common sense remarks about the veto of the river and harbor appropriation bill &c.—*Janesville Gazette.*

Strongly inclined to favor the democratic side of politics when there is any possible chance, are we? Some of the members in good standing of the democratic church here, have their doubts on that subject, neighbor. We would like to remove those doubts if the democratic administration would only throw out one of the chances above alluded to. Of president Pierce & Co., why won't you give a fellow a chance now and then. We are very anxious to praise some act of yours, but you studiously put it out of our power.—*Prairie du Chien Cour.*

A SUCCESSFUL FLEE OF SICKNESS.—A young lad, not more than eleven years of age, named Patrick Heuson, was arrested some days since and lodged in jail, charged with riding the money draw of John McCallray, at the Little Bada. He was to have been tried yesterday at the court sessions. At the opening of the court he was brought in with the other prisoners, and after being there a short time, he complained of being ill and unable to sit up. He was conveyed back to jail, a physician sent for, who administered to him hot drops. His mother acted as nurse, and she pronounced it a case of cholera, when she commenced rubbing the lad and administering the usual remedies as are prescribed in such cases. He continued to grow worse under the treatment, when his cure was pronounced a hopeless one. An officer was despatched from the jail to the courtroom, and upon his representations to the district attorney, that Patrick could not live an hour, he moved that a *nolle prosequi* be entered in his case, which was accordingly granted by the court.—The tidings of his discharge were speedily conveyed to the mother, who took up the wayward boy in her arms, he pretending to be unable to walk, from the jail. She carried him a short distance, until they were beyond sight of those standing on the steps leading to the jail, when the darling boy sprang from her arms and ran off in great glee. The trick was handsomely played off by both parties, and when told in court the duped officer appeared to be deeply mortified.—*Albany Journal.*

THE FIRES WEST.—We learn from the Cleveland Plain Dealer that the pine swamp west of Hudson has been burning for several weeks, and within a few days has done an immense amount of damage. Whole meadows to the amount of several hundred acres have burnt out four feet deep, and will, of course, when the swamp fills with water, become a lake. The fire would commence eating under, till whole acres were undermined, when a vent would occur, through which the flames would rush out for many feet in height and the whole ground, timber and all, would be consumed. Large trees would fall in a mass and be burned to ashes. President Pierce, of the Hudson college, was in the vicinity when he saw some trees apparently on solid ground, but a short distance from him, commence tumbling, when he started to run. They continued to fall behind him, and so near was he at one time to the danger, that the limbs of a falling tree brushed him. The inhabitants are in the utmost consternation, not knowing where or when this terrible state of things will end. Like calamities never before visited this country, and unless we soon have rain, the situation of many neighborhoods will be worse than if they lived in the midst of earthquakes. God grant rain may soon come.

The Philadelphia Ledger states that a deposit was made at the mint on Saturday last, of about five thousand dollars worth of the melted gold taken from the recently raised wreck of the unfortunate steamer Erie, which was burnt and sunk on lake Erie some thirteen years ago.—There was found mixed with the melted money part of an old German lock, the material parts of which were in a pretty good state of preservation.

The railway across the Apennines, in Italy, extending from Turin to Genoa, is said to have the greatest grade in Europe. The high grade is near the town of Gleni, the ascent being one hundred and eighty feet to the mile.—Two locomotives drawing a train of six loaded gravel cars, weighing altogether one hundred tons, ascended the grade at a time when the rails were exceedingly wet and slippery, at a speed of nineteen miles per hour. This is a feat unprecedented in the annals of railway history.

The library of Gen. Davis, at Troy, was entirely destroyed on Friday last during the great fire. His collection of political works, pamphlets and papers, numbering over 4000 volumes, one of the most rare and valuable in the country, was entirely destroyed. He had been many years making the collection, and in it were documents that cannot be replaced.

ANTQUATED.—In 1823 Lewis Withrop caught a terrapin on the farm of Zadock Richards, in Jackson county, Ia, and cut his name and date on its back. This singular animal has been seen on the same farm a number of times every year since; and only a few days ago it was examined, and the name and date carved on its back are quite plain. Though thirty-two years have elapsed since the mark was made, the animal has seemingly undergone no change. He plods along as ever, showing no more signs of old age than he did when first seen.

STANDBY ACCIDENT.—An accident happened to the machinery of the steamboat Hendrik Hudson as she was leaving her pier, in Albany, on Friday evening, with 400 passengers, and she was towed to New York by the steamboat Troy, reaching her dock on Saturday afternoon. Indignation meetings were held and resolutions passed on both boats, in which their officers were severely censured,—those of the Hendrik Hudson for refusing to give the passengers their meals, or allow them to land, and those of the Troy for converting a passenger boat into a tow boat, causing a day's delay, and serious loss to some of the passengers. It was said the machinery was known beforehand to be injured, and that there was a previous understanding between the two boats.

Advices from Tennessee, Alabama and Georgia speak favorably of the corn crops, and throughout most of the western states there have been rains, which have been greatly improved the condition of the crops. The indications now are, that taking the country through, the yield will not be much below a fair average.

COSTLY.—In the discussion of the navy appropriation bill in the senate, the fact was disclosed that the expenses of chartering and supplying fuel, etc., for a steamer to suppress filibustering in Lower California amounted to \$113,638. The rate paid for the boat was \$1,500 a day, and the coal cost \$13 per ton! The senate rejected an amendment to pay the amount it being more than the whole value of the steamer.

ANOTHER STATE.—Another state is soon to be added to the galaxy of our parti-colored constellation. The people on the southern shore of Lake Superior are again agitating the question, of forming a new state out of portions of Michigan, Wisconsin, and Minnesota, to be called "Superior." About two years ago a similar project was unsuccessful; but with a strong anti-slavery majority in the next congress we see nothing to prevent the addition of another star to our band of northern states; one that will shine with no dubious or reflecting light,—but one who will be a beacon light on the outer wall of freedom's temple.

Highly Important to Farmers.
THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST.

THE MADISON MUTUAL.
LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses only your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected positively, by LETTING THEM ALONE.

For more information, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have had no losses, and we have no premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

JANESVILLE : : : WISCONSIN.
WEDNESDAY MORNING, SEPT. 6, 1864.

ANOTHER ARRIVAL.—Yesterday the telegraph gave an alarm that a report was ready for us, but failed to deliver anything as soon as it was announced that we were ready for it. A private dispatch to the Milwaukee Sentinel, dated Sept. 4th, reports the arrival of the steamship Pacific, with news of a decline in breadstuffs, flour having fallen 6d, wheat 3d, and corn 6d. The capture of Bomersund is confirmed. The Austrians were entering Wallachia. The cholera was making awful ravages among the troops, the allied army having lost 12,000, and the Russians a still greater number. We suppose the report we failed to get contained the particulars of the events indicated by this dispatch.

The Pennsylvania free democratic convention met at Harrisburg August 30th, and passed resolutions withdrawing the state ticket, and recommending Judge Pollock, the whig candidate, for governor.

The whigs of New Jersey are now preparing for such a union as their brethren in many other states have effected. This gives great concern to the railroad monopoly, Nebraska, Conn. Stockton "democracy" of that little state, and their wallings are audibly given through their presses. To one of these, which assumes to "know the people of New Jersey" and "feels confident" that hundreds of the old fashioned Clay whigs of the state, will sooner vote the democratic ticket at the next election, than lend their countenance to the mad schemes of abolition fanatics, the Albany Journal well replies: "The mad schemes of abolition fanatics must mean the election of members of congress pledged to vote for the admission of no more slave states, as this is the only 'scheme' New Jersey whigs have yet entered into."

If this surprise the Democrat, it may as well prepare to be frequently astonished this fall. For upon that platform the whig party in all the northern states is steadily taking ground, without, so far as we hear, a single dissenting voice. Its appeal is ill-timed to the "old fashioned Clay whigs," who agree in Mr. Clay's declared determination "never to vote to extend slavery over a foot of territory where it does not exist." If the "democracy" can find any other "fashion" of "Clay whigs" they are welcome to them, in New Jersey and out of it.

CONNECTION.—Printer's devil, with a pull at his forelock, and scraps of his hoof, begs pardon of his friend, the "Book Items" man, for a "lapsus linguae" of the type yesterday.

The sentence referring to the "Nile Notes of a Howdji," compared with B. T.'s book, should read as follows:—"In reading the fanciful and poetical philosophical," etc., etc., instead of "this fanciful," etc.

There were some other inaccuracies, all of which will be avoided, the devil aforesaid hopes, when he becomes better acquainted with the chirography of the items man—which reminds us, that the supply of the books aforesaid at Sutherland's, is vanishing like plumb cake before the appetite of boarding school girls home in vacation. Verbum sap.

The first term of the Collegiate Institute will commence this Wednesday morning, at 10 o'clock, with appropriate exercises. Remarks will be made by different persons in regard to the educational interests of this city. Citizens generally, are invited to be present.

Senator Douglas is reported to have engaged to speak in Milwaukee about a fortnight hence.

The boring in the Artesian well at Belcher's sugar refinery, St. Louis, has already reached the enormous depth of two thousand and two hundred feet. Thus far the search for pure water has been unsuccessful; but the work goes on. Belcher's energy and perseverance will endure until the centre of the earth is reached.

The Vermont election took place yesterday, and the Maine comes on next Monday. From both states we shall be grievously disappointed if good reports do not come.

R. R. EARNINGS FOR AUGUST.—The earnings of the M. & M. R. R. for the month of August, just past, are as follows:

Freight,	\$19,332 53
Passengers,	13,087 81
Total,	\$32,420 34
Earnings for Aug. 1863:	
Freight,	\$9,521 28
Passengers,	8,764 88
Total,	\$18,286 16

The earnings of Aug. 1864, show an increase of nearly 100 per cent. over those of the corresponding month of 1863.

MASS CONVENTION.—A convention of the Janesville assembly district assembled at the court house, Tuesday, Sept. 5th, under a call of the republican county committee, to appoint two delegates to the congressional convention to be held at Mineral Point on the 18th inst.

On motion, Wm. M. Tallman was called to the chair and Chas. Holt appointed secretary. On motion, JOSEPH BAKER and JOSEPH A. SLEEPER were chosen special delegates, and Wm. M. TALLMAN and GEORGE H. WILLISTON as substitutes.

The convention then adjourned.

NOT BAD.—We clip the following capital hit from an exchange:

If you wish to keep your town from thriving, turn the cold shoulder to every young mechanic or beginner in business, look upon every new comer with a scorn. Discourage all you can; if that won't do, destroy his work and rather go abroad for wages of his hand than give him your money. Last, though not least, refuse to patronize the villi go paper. "Then go to seed."

WISCONSIN ANNUAL CONFERENCE OF THE M. E. CHURCH.

FIFTH DAY.
MONDAY, Sept. 4th, 1864.

Conference convened at 8 o'clock, bishop Morris in the chair. The session was opened with reading the scriptures, singing and prayer, by Boyd Phelps.

The minutes of the last session were read, corrected and approved.

Bishop Morris presented a communication on the subject of "A Biblical Institute, which was read and referred to a special committee.

A circular and exhibit from the Western Book Concern, was read and filed.

Rev. Mr. Poe gave an account of the condition of the Western Concern, also of the church suit, after which the following resolution was passed.

Resolved. That this conference fully approve the course of the agents of the Western Book Concern, in submitting the final decision of the painful controversy with the church south, to the supreme court of the United States.

The conference then resolved itself into a tract society. Quite a liberal contribution was made by the preachers, who pledged a large amount to be collected during the present year.

After electing officers for the ensuing year, the society adjourned.

The conference invited the transfer of Chas. P. Bragdon from the New England, to this conference.

Dolos Hale was received on trial.

The remainder of the session was occupied by business of but little interest to the public, so it will not be reported.

Various notices were given out, when conference adjourned with a benediction.

ELI C. JONES, Conf. Reporter.

SIXTH DAY.
TUESDAY, September 5th, 1864.

Conference convened at 8 o'clock, bishop Morris in the chair.

The session was opened with reading the scriptures and prayer by Rev. Mr. Callender.

The minutes of the last session were read, corrected, and approved.

Jewee Pardum was granted a superannuated relation.

Samuel Anderson, a Norwegian missionary, was continued on trial.

Robert Delap was continued on trial.

Conference then took up the question, who are received on trial:—Joel Howd, Peter Lang, Dwight Kodder, Harvey Orenit, Alfred G. Cooley, Wm. R. Jones, Holzer Gardner, O. B. Knudson, Stein Steinsen, Neals Olson, D. B. Anderson, Leander Hallack, Geo. F. Hilton, Horace B. Crandall, Lewis Ball, David O. Vanslyk.

The committee on education then made their report in part, as follows:

The committee on education then made their report in part, as follows:

I. In reference to the Lawrence university. The committee represented the institution as in a prosperous condition, the number of students being twice of that of any previous year. The building for the preparatory department is completed; the building for the college proper, a noble edifice, is in the process of erection, and will be, in part, ready for occupancy very soon; and steps are now being taken to erect a suitable building for the female department, which is much needed. Much has been done towards a permanent endowment for the university, and an able faculty has been constituted. The necessity of regarding this institution as exclusively the Methodist college of Wisconsin, and securing for it the undivided patronage of the conference and the church, was strongly impressed upon the minds of the ministers, and duly appreciated by them. In conclusion the committee recommended the re-affirmation of the following resolutions:

1st. Resolved, That the Lawrence university, located at Appleton, including both the preparatory and collegiate departments, is emphatically the institution of this conference, to the support of which we will devote our untiring energies.

2. That we learn with peculiar pleasure, through our board of visitors, of the successful efforts that have been made within the past year in raising funds, and in otherwise imparting maturity, vigor and usefulness to the institution.

3. That we have full confidence in the ability and integrity of both the board of trustees and the faculty of the university, and that we will use every suitable means to urge its claims and patronage upon the attention of the people of our respective churches.

4. That we concur in the recommendation of the visiting committee to the Lawrence University, for the appointment of Rev. J. S. Prescott as agent for that institution.

5. That each preacher in charge of circuits and stations shall preach or cause to be preached, at least once in the year, a sermon on education, at each principal appointment.

II. In reference to the North Western University, located about 12 miles from Chicago. The committee recommended the adoption of the following preamble and resolutions:

Whereas, In the original application made to the Wisconsin annual conference for the appointment of trustees and visitors to the Northwestern University, the claims of the Lawrence University to the undivided patronage and support of this conference were expressly stated, and that neither men nor money should, in aid of said contemplated university, be sought within the bounds of this conference, nor should the trustees of the said Lawrence University in any manner be interfered with; and the co-operation of this conference in the appointment of trustees and visitors to the said Northwestern University was only asked for the purpose of legally organizing the board, and preventing a delay which otherwise would have been unavoidable, before the charter could have been so amended as to enable them to proceed to action: And whereas the connection so established, and only intended as nominal, has, in the judgment of this conference operated prejudicially to the interests of the Lawrence University, both pecuniarily and otherwise, therefore,

Resolved. 1. That the Wisconsin annual conference decline any further election of trustees or visitors to the Northwestern University.

2. That the Northwestern University having received the benefits of the above recited agreement, by the aid afforded in the organization of its board and otherwise, cannot now, in good faith, permit its agents to traverse our territory, either for the purpose of selling scholarships or raising funds for its endowment and support.

3. That we wish peace and an interchange of fraternal relations to exist between the Lawrence and the Northwestern Universities; but that the best way of securing that object, is for each to pursue its work within its own bounds.

Dr. Hinman, President elect of the North Western University, opposed the adoption of the preamble and resolutions; and proposed, as a substitute, that the agents of the Northwestern University be permitted to canvass the southern portion of Wisconsin for the sale of scholarships, with the understanding that the agents of the Lawrence University should have the privilege of doing the same thing in northern Illinois. In a speech of considerable ability and length he endeavored to show the propriety and mutual advantage of this measure. He contended, however, that the balance would be greatly in favor of the University at Appleton, as that institution had, in addition to its college department, a preparatory department, and admitted students of both sexes; while the Chicago Institution had no preparatory department, and admitted only males.

He was answered by Dr. Cook, President of the Lawrence University, who, in a very able speech, proved the futility of Dr. Hinman's position, and exposed the sophistry of his argument—showing very conclusively that the nominal relation which this conference had sustained to the Northwestern University had operated very much against the interests of the Lawrence University—that it had given plausibility to the assumption, on the part of some of the friends of the Northwestern University, that this institution was the University of the Northwest—that Wisconsin belonged to them, and that the institution at Appleton was only a satellite or tributary to the Chicago College—that it had turned away into other channels more than ten thousand dollars which the Lawrence University otherwise might have received; and that if Dr. Hinman's proposition was accepted, it would in the end degrade the Lawrence University to a mere primary school.

After considerable discussion, among different members of the conference, the preamble and resolutions were passed unanimously.

The hour of adjournment having arrived, the session was closed with prayer, by Rev. Mr. Randall.

ELI C. JONES, Conf. Reporter.

THE CHESTER FACTORY OUTRAGES.—SINGULAR DEVELOPMENTS.—A "Carson Temperance League" was formed last spring at Chester Factory village, in the western part of this state, and soon after it had commenced active operations the property of its members began to suffer depredations. The Methodist church was blown up, David Cannon's barn was set on fire, trees were extensively girdled, and various horses were found minus their appropriate dorsal appendages, or painted zebra-wise.

In this strait the officers of the League applied to the police of Albany, who sent to their assistance a couple of skilful officers, named Chamberlain and Vosburgh. These men entered into the spirit of things, made free in the bar room, passed themselves off for sporting characters, denounced the Carson League, went to cock-fights, &c., and in a short time were considered by the suspected and unsuspecting parties to be ensnaring as "regular trumps."

Chamberlain even went so far in his dangerous schemes, as to have a regular preconcerted set to with the secretary of the League, and was punished by fine for the assault. After this he was regarded by all not in the secret as the master spirit of the rum party, and as such frequently denounced by those said townsmen.

At last Chamberlain was warned by his new found friends to leave the place, as they were about to blow up the secretary's grist mill. Chamberlain obeyed the request, but sent word to the League that on such a night flour might be expected to rise. A watch was accordingly set on the mill, and one man and a 25 pound keg of powder, with a fuse attached, were taken into custody; but the haul was not yet large enough, and the affair was kept still until the operators had recovered from their fright, and again commenced operations.

A few days since a descent was made upon the haunt of the gang, and eight persons named E. Hubbard, 3d, Ous Hamilton, B. L. Kingsley, A. L. Richards, Lewis Gibbs, Rufus Case, John Gardner, and Albert Nooney, were arraigned before a magistrate in Springfield, on complaints embracing each of the principal outrages committed in Chester. They were in high spirits when first arrested, but on learning the shrewd deception which had been practiced upon them by their quondam friends, they became "quite cool-fallen." As many persons of standing are also under suspicion, who probably fear further disclosures, there was no difficulty in obtaining bail, and the accused are now at liberty, awaiting trial at the next term of court.

The Prairie du Chien Courier, an independent paper, but strongly inclined to favor the democratic side of politics when there is any possible chance of doing so, makes the following plain, common sense remarks about the veto of the river and harbor appropriation bill &c.—
Janesville Gazette.

Strongly inclined to favor the democratic side of politics when there is any possible chance, are we? Some of the members in good standing of the democratic church here, have their doubts on that subject, neighbor. We would like to remove those doubts if the democratic administration would only throw out one of the chances above alluded to. O! president Pierce & Co., why won't you give a fellow a chance now and then. We are very anxious to praise some act of yours, but you studiously put it out of our power.—*Prairie du Chien Courier.*

A SUCCESSFUL FIRM OF SICKNESS.—A young lad, not more than eleven years of age, named Patrick Heuston, was arrested some days since and lodged in jail, charged with riding the money draw of John McCaffrey, at the Little Rock. He was to have been tried yesterday at the court sessions. At the opening of the court, he was brought in with the other prisoners, and after being there a short time, he complained of being ill and unable to sit up. He was conveyed back to jail, a physician sent for, who administered to him hot drops. His mother acted as nurse, and she pronounced it a case of cholera, when she commenced rubbing the lad and administering the usual remedies as are prescribed in such cases. He continued to grow worse under the treatment, when his cure was pronounced a hopeless one. An officer was despatched from the jail to the courtroom, and upon his representations to the district attorney, that Patrick could not live an hour, he moved that a *nolle prosequi* be entered in his case, which was accordingly granted by the court. The tidings of his discharge were speedily conveyed to the mother, who took up the wayward boy in her arms, he pretending to be unable to walk from the jail. She carried him a short distance, until they were beyond sight of those standing on the steps leading to the jail, when the darling boy sprang from her arms and ran off in great glee. The trick was handsomely played off by both parties, and when told in court the duped officer appeared to be deeply mortified.—*Albany Journal.*

THE FIRE WEST.—We learn from the Cleveland Plain Dealer that the pine swamp west of Hudson has been burning for several weeks, and within a few days has done an immense amount of damage. Whole meadows to the amount of several hundred acres have burnt out four feet deep, and will, of course, when the swamp fills with water, become a lake. The fire would commence eating under, till whole acres were undermined, when a vent would occur, through which the flames would rush out for many feet in height and the whole ground, timber and all, would be consumed. Large trees would fall in a mass and be burned to ashes. President Pierce, of the Hudson college, was in the vicinity when he saw some trees apparently on solid ground, but a short distance from him, commenced tumbling, when he started to run. They continued to fall behind him, and so near was he at one time to the danger, that the limbs of a falling tree brushed him. The inhabitants are in the utmost consternation, not knowing where or when this terrible state of things will end. Like calamities never before visited this country, and unless we soon have rain, the situation of many neighborhoods will be worse than if they lived in the midst of earthquakes. God grant rain may soon come.

The Philadelphia Ledger states that a deposit was made at the mint on Saturday last, of about five thousand dollars worth of the melted gold taken from the recently raised wreck of the unfortunate steamer Erie, which was burnt and sunk on Lake Erie some thirteen years ago. There was found mixed with the melted money part of an old German lock, the material parts of which were in a pretty good state of preservation.

The railway across the Apennines, in Italy, extending from Turin to Genoa, is said to have the greatest grade in Europe. The high grade is near the town of Gleni, the ascent being one hundred and eighty feet to the mile. Two locomotives drawing a train of six loaded gravel cars, weighing altogether one hundred tons, ascended the grade at a time when the rails were exceedingly wet and slippery, at a speed of nineteen miles per hour. This is a feat unprecedented in the annals of railway history.

The library of Gen. Davis, at Troy, was entirely destroyed on Friday last during the great fire. His collection of political works, pamphlets and papers, numbering over 4000 volumes, one of the most rare and valuable in the country, was entirely destroyed. He had been many years making the collection, and in it were documents that cannot be replaced.

ANTICIPATED.—In 1832 Lewis Withrop caught a terrapin on the farm of Zadock Richards, in Jackson county, Ia., and cut his name and date on its back. This singular animal has been seen on the same farm a number of times every year since; and only a few days ago it was examined, and the name and date carved on its back are quite plain. Though thirty-two years have elapsed since the mark was made, the animal has seemingly undergone no change. He plods along as ever, showing no more signs of old age than he did when first seen.

STEAMBOAT ACCIDENT.—An accident happened to the machinery of the steamboat Hendrik Hudson as she was leaving her pier, in Albany, on Friday evening, with 400 passengers, and she was towed to New York by the steamboat Troy, reaching her dock on Saturday afternoon. Indignation meetings were held and resolutions passed on both boats, in which their officers were severely censured,—those of the Hendrik Hudson for refusing to give the passengers their meals, or allow them to land, and those of the Troy for converting a passenger boat into a tow boat, causing a day's delay, and serious loss to some of the passengers. It was said the machinery was known beforehand to be injured, and that there was a previous understanding between the two boats.

Cincinnati, Aug. 29.
Advices from Tennessee, Alabama and Georgia speak favorably of the corn crops, and throughout most of the western states there have been rains, which have been greatly improved the condition of the crops. The indications now are, that taking the country through, the yield will not be much below a fair average.

CORRUPT.—In the discussion of the navy appropriation bill in the senate, the fact was disclosed that the expenses of chartering and supplying fuel, etc., for a steamer to suppress filibustering in Lower California amounted to \$113,638. The rate paid for the boat was \$1,500 a day, and the coal cost \$13 per ton! The senate rejected an amendment to pay the amount it being more than the whole value of the steamer.

It is expected that before the first day of January next, not less than twenty thousand men from the free states will be in Kansas or on the way thither. Mr. Thayer of Worcester, an active member of the emigrant aid society, recently stated that an emigrant can be sent from Boston to Kansas for \$25, and this price will be reduced. Where the emigrants carry heavy chests of mechanics' tools, not an agent on the line would take compensation. "All the agents," said Mr. T., "are on our side."—*Boston Atlas.*

ANOTHER STATE.—Another state is soon to be added to the galaxy of our parti-colored constellation. The people on the southern shore of Lake Superior are again agitating the question, of forming a new state out of portions of Michigan, Wisconsin, and Minnesota, to be called "Superior." About two years ago a similar project was unsuccessful; but with a strong anti-slavery majority in the next congress we see nothing to prevent the addition of another state to our band of northern states; one that will shine with no dubious or reflecting light,—but one who will be a beacon light on the outer wall of freedom's temple.

Something New!!
MR. CHARLES AUSTIN, the celebrated Reed maker has just completed his new Organ Reeds, upon which he has labored for this last five years and expended more than \$10,000. This reed is different from all others in this position, being much larger and having more power. It is intended for Church and Parlor Organs as manufactured by Messrs. Austin & Co., of the shape of all Church Organs. The price will range from \$175 to \$300, depending upon the finish of the case. Reeds are in want of an instrument of that value we would want that they have more power than any common Organ costing \$200.

J. P. Pease & Co., Janesville Wis., are interested in the manufacture and sale of these instruments, and are the only persons who can be trusted to sell them. They will have one or more for exhibition as early as Sept. 1st, and after that a good assortment as soon as they can be manufactured.

JOHN P. PEASE & Co., Janesville.

Capital and accumulation, \$650,000.

THIS Company is one of the oldest,
and among the most prudently and successfully conducted in the country. It is prepared to do all kinds of business in its line, and to pay the most liberal rates on all policies.

Every insured person is a member of the company
and shares in the profits of the business, and is subject to no liability or assessments beyond his premium.

The directors are required to be pecuniarily interested
in the company, and they give to their personal attention and bonds of sufficient security are given by its officers for the faithful performance of their duties.

Insurance may be effected for the benefit of the wife,
which is secured to her by law beyond the reach of a husband's creditors, and creditors may insure the lives of debtors.

Highly Important to Farmers.
THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST.

THE MADISON MUTUAL,
LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon
Farm property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible companies.

All losses promptly paid at the office as soon as proof
is made thereon.

We believe it to be for the interest of the farmers to
insure by themselves, their property being less hazardous than when insured by others, consequently they will have no losses, only gain from the rate of interest, and all will be on an equal footing.

Experience has shown that, two-thirds, if not three-
fourths of all the fires that occur are upon stores, taverns, and shops, and not upon farms. In this company all such property is rejected, positively, by letting them alone.

Farmers look to your own interest, and insure in a
Farmer's Company.

We have been in business a little over three years,
and we have not been obliged to reject a single farm property, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

CELEBRATED WORMWOOD CORDIAL.
THE subscriber in introducing this valuable temperance beverage, would respectfully call the attention of the public to the fact, that it is prepared from genuine wormwood, which grows luxuriantly in the New England States, the medicinal qualities of which, for the regulation of the stomach and blood, cannot be equaled by anything ever used.

It is a safe and preventive of Fever, Ague, Dys-
pepsia, Biliousness, and all diseases arising from impurities of the blood or infection of the stomach. Try it.

ANOTHER ARRIVAL.—Yesterday the telegraph gave an alarm that a report was ready for us, but failed to deliver anything as soon as it was announced that we were ready for it. A private dispatch to the Milwaukee Sentinel, dated Sept. 4th, reports the arrival of the steamship Pacific, with news of a decline in breadstuffs, flour having fallen 6d, wheat 3d, and corn 6d. The capture of Bismarck is confirmed. The Austrians were entering Wallachia. The cholera was making awful ravages among the troops, the allied army having lost 12,000, and the Russians a still greater number. We suppose the report we failed to get contained the particulars of the events indicated by this dispatch.

The Pennsylvania free democratic convention met at Harrisburg August 30th, and passed resolutions withdrawing the state ticket, and recommending Judge Pollock, the whig candidate, for governor.

The whigs of New Jersey are preparing for such a union as their brethren in many other states have effected. This gives great concern to the railroad monopoly, Nebraska, Com. Stockton "democracy" of that little state, and their wallings are audibly given through their presses. To one of these, which assumes to "know the people of New Jersey" and "feels confident that hundreds of the old fashioned Clay whigs of the state, will sooner vote the democratic ticket at the next election, than lend their countenance to the mad schemes of abolition fanatics," the Albany Journal will reply:

"The mad schemes of abolition fanatics" must mean the election of members of congress pledged to vote for the admission of no more slave states, as this is the only "scheme" New Jersey whigs have yet entered into.

If this surprises the Democrat, it may as well prepare to be frequently astonished this fall. For upon that platform the whig party in all the northern states is steadily taking ground, without, so far as we hear, a single dissenting voice.

Its appeal is ill-timed to the "old fashioned Clay whigs" who agree in Mr. Clay's declared determination "never to vote to extend slavery over a foot of territory where it does not exist. If the "democracy" can find any other "fashion" of "Clay whigs" they are welcome to them, in New Jersey and out of it.

CONNECTION.—Printer's devil, with a pull at his forelock, and scrape of his hoof, begs pardon of his friend, the "Book Items" man, for a "lapis lingue" of the type yesterday.

The sentence referring to the "Nile Notes of a Howadji" compared with B. T.'s book, should read as follows:—"In reading the fanciful and poetically philosophical," etc., etc., instead of "this fanciful," etc.

There were some other inaccuracies, all of which will be avoided, the devil aforesaid hopes, when he becomes better acquainted with the bibliography of the items man—which reminds us, that the supply of the books aforesaid at Sutherland's, is vanishing like plumb cake before the appetite of boarding school girls home in vacation. Verbum sap.

The first term of the Collegiate Institute will commence this Wednesday morning, at 10 o'clock, with appropriate exercises. Remarks will be made by different persons in regard to the educational interests of this city. Citizens generally, are invited to be present.

Senator Douglas is reported to have engaged to speak in Milwaukee about a fortnight hence.

The boring in the Artesian well at the sugar refinery, St. Louis, has already reached the enormous depth of two thousand and two hundred feet. Thus far the search for pure water has been unsuccessful; but the work goes on. Belcher's energy and perseverance will endure until the centre of the earth is reached.

The Vermont election took place yesterday, and the Maine comes on next Monday. From both states we shall be gravely disappointed if good reports do not come.

R. R. EARNINGS FOR AUGUST.—The earnings of the M. & M. R. R., for the month of August, just past, are as follows:

Freight,	\$10,332 53
Passengers,	13,087 81
Total,	\$23,420 34
Earnings for Aug. 1853:	\$9,521 28
Freight,	8,754 88
Passengers,	
Total,	\$18,276 16

The earnings of Aug. 1854, show an increase of nearly 100 per cent. over those of the corresponding month of 1853.

MASS CONVENTION.—A convention of the Janesville assembly district assembled at the court house, Tuesday, Sept. 5th, under a call of the republican county committee, to appoint two delegates to the congressional convention to be held at Mineral Point on the 13th inst.

On motion, Wm. M. TALLMAN was called to the chair and Chas. Holt appointed secretary. On motion, JOSEPH BAKER and JOSEPH A. SLEEPER were chosen such delegates, and Wm. M. TALLMAN and GEORGE H. WILLISTON as substitutes.

The convention then adjourned.

Wm. M. TALLMAN, Chn.

NOR BIRD.—We clip the following capital hit from an exchange:

If you wish to keep your town from thriving, turn the cold shoulder to every young mechanic or beginner in business, look upon every new comer with a scorn. Discourage all you can; if that won't do, desert his work and rather go abroad for wages of his kind than give him your money. Last, though not least, refuse to patronize the villi go payor. "Then go to seed."

Conference convened at 8 o'clock, bishop Morris in the chair. The session was opened with reading the scriptures, singing and prayer, by Boyd Phelps.

The minutes of the last session were read, corrected and approved.

Bishop Morris presented a communication on the subject of a Bibles Institute, which was read and referred to a special committee.

A circular and exhibit from the Western Book Concern, was read and filed.

Rev. Mr. Poe gave an account of the condition of the Western Concern, also of the church suit, after which the following resolution was passed.

Resolved, That this conference fully approve the course of the agents of the Western Book Concern, in submitting the final decision of the painful controversy with the church south, to the supreme court of the United States.

The conference then resolved itself into a tract society. Quite a liberal contribution was made by the preachers, who pledged a large amount to be collected during the present year. After electing officers for the ensuing year, the society adjourned.

The conference invited the transfer of Chas. P. Bragdon from the New England, to this conference.

Delos Hale was received on trial.

The remainder of the session was occupied by business of but little interest to the public, so it will not be reported.

Various notices were given out, when conference adjourned with a benediction.

ELI C. JONES, Conf. Reporter.

Conference convened at 8 o'clock, bishop Morris in the chair.

The session was opened with reading the scriptures and prayer by Rev. Mr. Callender.

The minutes of the last session were read, corrected, and approved.

Jesse Pardon was granted a superannuated relation.

Samuel Anderson, a Norwegian missionary, was continued on trial.

Robert Delap was continued on trial.

Conference then took up the question, who are received on trial.—Joel Howd, Peter Lang, Dwight Keddar, Harvey Orcutt, Alfred G. Cooley, Wm. R. Jones, Oliver Gardner, O. B. Knudson, Stein Steinsen, Neals Olson, D. B. Anderson, Leander Hallack, Geo. F. Hiltun, Horace B. Crandall, Lewis Ball, David O. Vanslyk.

The committee on education then made their report in part, as follows:

The committee on education then made their report in part, as follows:

I. In reference to the Lawrence university.

The committee represented the institution as in a prosperous condition, the number of students being twelve of that of any previous year. The building for the preparatory department is completed; the building for the college proper, a noble edifice, is in the process of erection, and will be, in part, ready for occupancy very soon; and steps are now being taken to erect a suitable building for the female department, which is much needed. Much has been done towards a permanent endowment for the university, and an able faculty has been constituted. The necessity of regarding this institution as exclusively the Methodist college of Wisconsin, and securing for it the undivided patronage of the conference and the church, was strongly impressed upon the minds of the ministers, and duly appreciated by them. In conclusion the committee recommended the re-affirmation of the following resolutions:

1st. Resolved, That the Lawrence university, located at Appleton, including both the preparatory and collegiate departments, is emphatically the institution of this conference, to the support of which we will devote our untiring energies.

2. That we learn with peculiar pleasure, through our board of visitors, of the successful efforts that have been made within the past year in raising funds, and in otherwise imparting maturity, vigor and usefulness to the institution.

3. That we have full confidence in the ability and integrity of both the board of trustees and the faculty of the university, and that we will use every suitable means to urge its claims and patronage upon the attention of the people of our respective churches.

4. That we concur in the recommendation of the visiting committee to the Lawrence University, for the appointment of Rev. J. S. Prescott as agent for that institution.

5. That each preacher in charge of circuits and stations shall preach or cause to be preached, at least once in the year, a sermon on education, at each principal appointment.

II. In reference to the North Western University, located about 12 miles from Chicago. The committee recommended the adoption of the following preamble and resolutions:

Whereas, In the original application made to the Wisconsin annual conference for the appointment of trustees and visitors to the North Western University, the claims of the Lawrence University to the undivided patronage and support of this conference were expressly stated, and that neither men nor money should, in aid of said contemplated university, be sought within the bounds of this conference, nor should the trustees of the said Lawrence University in any manner be interfered with; and the co-operation of this conference in the appointment of trustees and visitors to the said North Western University was only asked for the purpose of le-

gally organizing the board, and preventing a delay which otherwise would have been unavoidable, before the charter could have been so amended as to enable them to proceed to action. And whereas the connection so established, and only intended as nominal, has, in the judgment of this conference operated prejudicially to the interests of the Lawrence University, both pecuniarily and otherwise, therefore,

Resolved, 1. That the Wisconsin annual conference decline any further election of trustees or visitors to the Northwestern University.

2. That the Northwestern University having received the benefits of the above recited agreement, by the aid afforded in the organization of its board and otherwise, cannot now, in good faith, permit its agents to traverse our territory, either for the purpose of selling schoolships or raising funds for its endowment and support.

3. That we wish peace and an interchange of fraternal relations to exist between the Lawrence and the Northwestern Universities; but that the best way of securing that object, is for each to pursue its work within its own bounds.

Dr. Hannon, President elect of the North Western University, opposed the adoption of the preamble and resolutions; and proposed, as a substitute, that the agents of the Northwestern University be permitted to canvass the southern portion of Wisconsin for the sale of schoolships, with the understanding that the agents of the Lawrence University should have the privilege of doing the same thing in northern Illinois. In a speech of considerable ability and length he endeavored to show the propriety and mutual advantage of this measure. He contended, however, that the balance would be greatly in favor of the University at Appleton, as that institution had, in addition to its collegiate department, a preparatory department, and admitted students of both sexes; while the Chicago Institution had no preparatory department, and admitted only males.

He was answered by Dr. Cook, President of the Lawrence University, who, in a very able speech, proved the futility of Dr. Hannon's position, and exposed the sophistry of his argument—showing very conclusively that the nominal relation which this conference had sustained to the Northwestern University had operated very much against the interests of the Lawrence University—that it had given plausibility to the assumption, on the part of some of the friends of the Northwestern University, that this institution was the University of the Northwest—that Wisconsin belonged to them, and that the institution at Appleton was only a satellite or tributary to the Chicago College—that it had turned away into other channels more than ten thousand dollars which the Lawrence University otherwise might have received; and that if Dr. Hannon's proposition was accepted, it would in the end degrade the Lawrence University to a mere primary school.

After considerable discussion, among different members of the conference, the preamble and resolutions were passed unanimously.

The hour of adjournment having arrived, the session was closed with prayer by Rev. Mr. Randall.

THE CHESTER FACTORY OUTRAGES.—SINGULAR DEVELOPMENTS.—A "Carson Temperance League" was formed last spring at Chester Factory village, in the western part of this state, and soon after it had commenced active operations the property of its members began to suffer depredations. The Methodist church was blown up, David Cannon's barn was set on fire, trees were extensively girdled, and various horses were found minus their appropriate dorsal appendages, or painted zebra-wise.

In this trait the officers of the League applied to the police of Albany, who sent to their assistance a couple of skillful officers, named Chamberlain and Vosburgh. These men entered into the spirit of things, made free in the bar room, passed themselves off for sporting characters, denounced the Carson League, went to cock-fights, &c., and in a short time were considered by the suspected and unsuspecting parties they were ensnaring as "regular trumps." Chamberlain even went so far in his dangerous schemes, as to have a regular preconcerted set to with the secretary of the League, and was punished by fine for the assault. After this he was regarded by all not in the secret as the master spirit of the rum party, and as such frequently denounced by the staid townsmen.

At last Chamberlain was warned by his new found friends to leave the place, as they were about to blow up the secretary's grist mill. Chamberlain obeyed the request, but sent word to the League that on such a night four might be expected to rise. A watch was accordingly set on the mill, and one man and a 25 pound keg of powder, with a fuse attached, were taken into custody; but the haul was not yet large enough, and the affair was kept still until the operators had recovered from their fright, and again commenced operations.

A few days since a descent was made upon the haunt of the gang, and eight persons named E. Hubbard, 3d, Ohio Hamilton, B. L. Kingsley, A. L. Richards, Lewis Gibbs, Rufus Casp, John Gardner, and Albert Nooney, were arraigned before a magistrate in Springfield, on complaints embracing each of the principal outrages committed in Chester. They were in high spirits when first arrested, but on learning the shrewd deception which had been practised upon them by their quondam friends, they became "quite chop-fallen." As many persons of standing are also under suspicion, who probably fear further disclosures, there was no difficulty in obtaining bail, and the accused are now at liberty, awaiting trial at the next term of court.

The Prairie du Chien Courier, an independent paper, but strongly inclined to favor the democratic side of politics when there is any possible chance of doing so, makes the following plain, common sense remarks about the veto of the river and harbor appropriation bill &c.—

Janesville Gazette.

Strongly inclined to favor the democratic side of politics when there is any possible chance, are we? Some of the members in good standing of the democratic church here, have their doubts on that subject, neighbor. We would like to remove those doubts if the democratic administration would only throw out one of the chances above alluded to. Of president Pierce & Co., why won't you give a fellow a chance now and then. We are very anxious to praise some act of yours, but you studiously put it out of our power.—*Prairie du Chien Courier.*

A SUCCESSFUL PLEA OF SICKNESS.—A young lad, not more than eleven years of age, named Patrick Henon, was arrested some days since and lodged in jail, charged with rifling the money draw of John McCallray, at the Little Bazaar. He was to have been tried yesterday at the court sessions. At the opening of the court he was brought in with the other prisoners, and after being there a short time, he complained of being ill and unable to sit up. He was conveyed back to jail, a physician sent for, who administered to him hot drops. His mother acted as nurse, and she pronounced it a case of cholera, when she commenced rubbing the lad and administering the usual remedies as are proscribed in such cases. He continued to grow worse under the treatment, when his cure was pronounced a hopeless one. An officer was dispatched from the jail to the courtroom, and upon his representations to the district attorney, that Patrick could not live an hour, he moved that a *nolle prosequi* be entered in his case, which was accordingly granted by the court.—The tidings of his discharge were speedily conveyed to the mother, who took up the wayward boy in her arms, he pretending to be unable to walk, from the jail. She carried him a short distance, until they were beyond sight of those standing on the steps leading to the jail, when the darling boy sprang from her arms and ran off in great glee. The trick was handsomely played off by both parties, and when told in court the duped officer appeared to be deeply mortified.—*Albany Journal.*

THE FIRES WEST.—We learn from the Cleveland Plain Dealer that the pine swamp west of Hudson has been burning for several weeks, and within a few days has done an immense amount of damage. Whole meadows to the amount of several hundred acres have burnt out four feet deep, and will, of course, when the swamp fills with water, become a lake. The fire would commence eating under, till whole acres were undermined, when a vent would occur, through which the flames would rush out for many feet in height and the whole ground, timber and all, would be consumed. Large trees would fall in a mass and be burned to ashes. President Pierce, of the Hudson college, was in the vicinity when he saw some trees apparently on solid ground, but a short distance from him, commence tumbling, when he started to run. They continued to fall behind him, and so near was he at one time to the danger, that the limbs of a falling tree brushed him. The inhabitants are in the utmost consternation, not knowing where or when this terrible state of things will end. Like calamities never before visited this country, and unless we soon have rain, the situation of many neighborhoods will be worse than if they lived in the midst of earthquakes. God grant rain may soon come.

The Philadelphia Ledger states that a deposit was made at the mint on Saturday last, of about five thousand dollars worth of the melted gold taken from the recently raised wreck of the unfortunate steamer Erie, which was burnt and sunk on Lake Erie some thirteen years ago.—There was found mixed with the melted money part of an old German lock, the material parts of which were in a pretty good state of preservation.

The railway across the Apennines, in Italy, extending from Turin to Genoa, is said to have the greatest grade in Europe. The high grade is near the town of Gleni, the ascent being one hundred and eighty feet to the mile.—Two locomotives drawing a train of six loaded gravel cars, weighing altogether one hundred tons, ascended the grade at a time when the rails were exceedingly wet and slippery, at a speed of nineteen miles per hour. This is a feat unprecedented in the annals of railway history.

The library of Gen. Davis, at Troy, was entirely destroyed on Friday last during the great fire. His collection of political works, pamphlets and papers, numbering over 4000 volumes, one of the most rare and valuable in the country, was entirely destroyed. He had been many years making the collection, and in it were documents that cannot be replaced.

ANTIQUATED.—In 1822 Lewis Withrop caught a terrapin on the farm of Zadock Richards, in Jackson county, Ia, and cut his name and date on its back. This singular animal has been seen on the same farm a number of times every year since; and only a few days ago it was examined, and the name and date carved on its back are quite plain. Though thirty-two years have elapsed since the mark was made, the animal has seemingly undergone no change. Its plods along as ever, showing no more signs of old age than he did when first seen.

STEAMBOAT ACCIDENT.—An accident happened to the machinery of the steamboat Hendrik Hudson as she was leaving her pier, in Albany, on Friday evening, with 400 passengers, and she was towed to New York by the steamboat Troy, reaching her dock on Saturday afternoon. Indignation meetings were held and resolutions passed on both boats, in which their officers were severely censured,—those of the Hendrik Hudson for refusing to give the passengers their meals, or allow them to land, and those of the Troy for converting a passenger boat into a tow boat, causing a day's delay, and serious loss to some of the passengers. It was said the machinery was known beforehand to be injured, and that there was a previous understanding between the two boats.

Advices from Tennessee, Alabama and Georgia speak favorably of the corn crops, and throughout most of the western states there have been rains, which have been greatly improved the condition of the crops. The indications now are, that taking the country through, the yield will not be much below a fair average.

COSTLY.—In the discussion of the navy appropriation bill in the senate, the fact was disclosed that the expenses of chartering and supplying fuel, etc., for a steamer to suppress filibustering in Lower California amounted to \$113,638. The rate paid for the boat was \$1,500 a day, and the coal cost \$13 per ton! The senate rejected an amendment to pay the amount it being more than the whole value of the steamer.

It is expected that before the first day of January next, not less than twenty thousand men from the free states will be in Kansas or on the way thither. Mr. Thayer of Worcester, an active member of the emigrant aid society, recently stated that an emigrant can be sent from Boston to Kansas for \$25, and this price will be reduced. Where the emigrants carry heavy chests of mechanics' tools, not an agent on the line would take compensation. "All the agents," said Mr. T., "are on our side."—*Boston Atlas.*

ANOTHER STATE.—Another star is soon to be added to the galaxy of our parti-colored constellations. The people on the southern shore of Lake Superior are again agitating the question, of forming a new state out of portions of Michigan, Wisconsin, and Minnesota, to be called "Superior." About two years ago a similar project was unsuccessful; but with a strong anti-slavery majority in the next congress we see nothing to prevent the addition of another star to our band of northern states; one that will shine with no dubious or reflecting light,—but one who will be a beacon light on the outer wall of freedom's temple.

ANOTHER ARRIVAL.—Yesterday the telegraph gave an alarm that a report was ready for us, but failed to deliver anything as soon as it was announced that we were ready for it. A private dispatch to the Milwaukee Sentinel, dated Sept. 4th, reports the arrival of the steamship Pacific, with news of a decline in breadstuffs, flour having fallen 6d, wheat 3d, and corn 6d. The capture of Bismarck is confirmed. The Austrians were entering Wallachia. The cholera was making awful ravages among the troops, the allied army having lost 12,000, and the Russians a still greater number. We suppose the report we failed to get contained the particulars of the events indicated by this dispatch.

The Pennsylvania free democratic convention met at Harrisburg August 30th, and passed resolutions withdrawing the state ticket, and recommending Judge Pollock, the whig candidate, for governor.

The whigs of New Jersey are preparing for such a union as their brethren in many other states have effected. This gives great concern to the railroad monopoly, Nebraska, Com. Stockton "democracy" of that little state, and their wallings are audibly given through their presses. To one of these, which assumes to "know the people of New Jersey" and "feels confident that hundreds of the old fashioned Clay whigs of the state, will sooner vote the democratic ticket at the next election, than lend their countenance to the mad schemes of abolition fanatics," the Albany Journal will reply:

"The mad schemes of abolition fanatics" must mean the election of members of congress pledged to vote for the admission of no more slave states, as this is the only "scheme" New Jersey whigs have yet entered into.

If this surprises the Democrat, it may as well prepare to be frequently astonished this fall. For upon that platform the whig party in all the northern states is steadily taking ground, without, so far as we hear, a single dissenting voice.

Its appeal is ill-timed to the "old fashioned Clay whigs," who agree in Mr. Clay's declared determination "never to vote to extend slavery over a foot of territory where it does not exist. If the 'democracy' can find any other 'fashion' of 'Clay whigs' they are welcome to them, in New Jersey and out of it.

CONNECTION.—Printer's devil, with a pull at his forelock, and scrape of his hoof, begs pardon of his friend, the "Book Items" man, for a "lapsus lingue" of the type yesterday.

The sentence referring to the "Nile Notes of a Howadji," compared with B. T.'s book, should read as follows:—"In reading the fanciful and poetically philosophical," etc., etc., instead of "this fanciful," etc.

There were some other inaccuracies, all of which will be avoided, the devil aforesaid hopes, when he becomes better acquainted with the bibliography of the items man—which reminds us, that the supply of the books aforesaid at Sutherland's, is vanishing like plumb cake before the appetite of boarding school girls home in vacation. MASS CONVENTION.—A convention of the Janesville assembly district assembled at the court house, Tuesday, Sept. 5th, under a call of the republican county committee, to appoint two delegates to the congressional convention to be held at Mineral Point on the 13th inst.

On motion, Wm. M. TALLMAN was called to the chair and Chas. Holt appointed secretary. On motion, JOSEPH BAKER and JOSEPH A. SLEEPER were chosen such delegates, and Wm. M. TALLMAN and GEORGE H. WILLISTON as substitutes.

The convention then adjourned.

FIFTH DAY.

MONDAY, SEPT. 4th, 1854.

Conference convened at 8 o'clock, bishop Morris in the chair. The session was opened with reading the scriptures, singing and prayer, by Boyd Phelps.

The minutes of the last session were read, corrected and approved.

Bishop Morris presented a communication on the subject of a Billical Institute, which was read and referred to a special committee.

A circular and exhibit from the Western Book Concern, was read and filed.

Rev. Mr. Poe gave an account of the condition of the Western Concern, also of the church suit, after which the following resolution was passed.

Resolved, That this conference fully approve the course of the agents of the Western Book Concern, in submitting the final decision of the painful controversy with the church south, to the supreme court of the United States.

The conference then resolved itself into a tract society. Quite a liberal contribution was made by the preachers, who pledged a large amount to be collected during the present year.

After electing officers for the ensuing year, the society adjourned.

The conference invited the transfer of Chas. P. Bragdon from the New England, to this conference.

Delos Hale was received on trial.

The remainder of the session was occupied by business of but little interest to the public, so it will not be reported.

Various notices were given out, when conference adjourned with a benediction.

SIXTH DAY.

TUESDAY, September 5th, 1854.

Conference convened at 8 o'clock, bishop Morris in the chair.

The session was opened with reading the scriptures and prayer by Rev. Mr. Callender.

The minutes of the last session were read, corrected, and approved.

Jesse Pardon was granted a superannuated relation.

Samuel Anderson, a Norwegian missionary, was continued on trial.

Robert Delap was continued on trial.

Conference then took up the question, who are received on trial—Joel Howd, Peter Lang, Dwight Keddar, Harvey Orcutt, Alfred G. Cooley, Wm. R. Jones, Oliver Gardner, O. B. Knudson, Stein Steinsen, Neals Olson, D. B. Anderson, Leander Hallack, Geo. F. Hiltun, Horace B. Crandall, Lewis Ball, David O. Van Slyk.

The committee on education then made their report in part, as follows:

The committee on education then made their report in part, as follows:

I. In reference to the Lawrence university. The committee represented the institution as in a prosperous condition, the number of students being twelve of that of any previous year. The building for the preparatory department is completed; the building for the college proper, a noble edifice, is in the process of erection, and will be, in part, ready for occupancy very soon; and steps are now being taken to erect a suitable building for the female department, which is much needed. Much has been done towards a permanent endowment for the university, and an able faculty has been constituted. The necessity of regarding this institution as exclusively the Methodist college of Wisconsin, and securing for it the undivided patronage of the conference and the church, was strongly impressed upon the minds of the ministers, and duly appreciated by them. In conclusion the committee recommended the re-affirmation of the following resolutions:

1st. Resolved, That the Lawrence university, located at Appleton, including both the preparatory and collegiate departments, is emphatically the institution of this conference, to the support of which we will devote our untiring energies.

2. That we learn with peculiar pleasure, through our board of visitors, of the successful efforts that have been made within the past year in raising funds, and in otherwise imparting maturity, vigor and usefulness to the institution.

3. That we have full confidence in the ability and integrity of both the board of trustees and the faculty of the university, and that we will use every suitable means to urge its claims and patronage upon the attention of the people of our respective churches.

4. That we concur in the recommendation of the visiting committee to the Lawrence University, for the appointment of Rev. J. S. Prescott as agent for that institution.

5. That each preacher in charge of circuits and stations shall preach or cause to be preached, at least once in the year, a sermon on education, at each principal appointment.

II. In reference to the North Western University, located about 12 miles from Chicago. The committee recommended the adoption of the following preamble and resolutions:

Whereas, In the original application made to the Wisconsin annual conference for the appointment of trustees and visitors to the North Western University, the claims of the Lawrence University to the undivided patronage and support of this conference were expressly stated, and that neither men nor money should, in aid of said contemplated university, be sought within the bounds of this conference, nor should the trustees of the said Lawrence University in any manner be interfered with; and the co-operation of this conference in the appointment of trustees and visitors to the said North Western University was only asked for the purpose of le-

gally organizing the board, and preventing a delay which otherwise would have been unavoidable, before the charter could have been so amended as to enable them to proceed to action. And whereas the connection so established, and only intended as nominal, has, in the judgment of this conference operated prejudicially to the interests of the Lawrence University, both pecuniarily and otherwise, therefore,

Resolved, 1. That the Wisconsin annual conference decline any further election of trustees or visitors to the North Western University.

2. That the North Western University having received the benefits of the above recited agreement, by the aid afforded in the organization of its board and otherwise, cannot now, in good faith, permit its agents to traverse our territory, either for the purpose of selling schoolships or raising funds for its endowment and support.

3. That we wish peace and an interchange of fraternal relations to exist between the Lawrence and the North Western Universities; but that the best way of securing that object, is for each to pursue its work within its own bounds.

Dr. Hannon, President elect of the North Western University, opposed the adoption of the preamble and resolutions; and proposed, as a substitute, that the agents of the North Western University be permitted to canvass the southern portion of Wisconsin for the sale of schoolships, with the understanding that the agents of the Lawrence University should have the privilege of doing the same thing in northern Illinois. In a speech of considerable ability and length he endeavored to show the propriety and mutual advantage of this measure. He contended, however, that the balance would be greatly in favor of the University at Appleton, as that institution had, in addition to its collegiate department, a preparatory department, and admitted students of both sexes; while the Chicago Institution had no preparatory department, and admitted only males.

He was answered by Dr. Cook, President of the Lawrence University, who, in a very able speech, proved the futility of Dr. Hannon's position, and exposed the sophistry of his argument—showing very conclusively that the nominal relation which this conference had sustained to the North Western University had operated very much against the interests of the Lawrence University—that it had given plausibility to the assumption, on the part of some of the friends of the North Western University, that this institution was the University of the Northwest—that Wisconsin belonged to them, and that the institution at Appleton was only a satellite or tributary to the Chicago College—that it had turned away into other channels more than ten thousand dollars which the Lawrence University otherwise might have received; and that if Dr. Hannon's proposition was accepted, it would in the end degrade the Lawrence University to a mere primary school.

After considerable discussion, among different members of the conference, the preamble and resolutions were passed unanimously.

The hour of adjournment having arrived, the session was closed with prayer by Rev. Mr. Randall.

THE CHESTER FACTORY OUTRAGES.—SINGULAR DEVELOPMENTS.—A "Carson Temperance League" was formed last spring at Chester Factory village, in the western part of this state, and soon after it had commenced active operations the property of its members began to suffer depredations. The Methodist church was blown up, David Cannon's barn was set on fire, trees were extensively girdled, and various horses were found minus their appropriate dorsal appendages, or painted zebra-wise.

In this trait the officers of the League applied to the police of Albany, who sent to their assistance a couple of skillful officers, named Chamberlain and Vosburgh. These men entered into the spirit of things, made free in the bar room, passed themselves off for sporting characters, denounced the Carson League, went to cock-fights, &c., and in a short time were considered by the suspected and unsuspecting parties they were ensnaring as "regular trumps."

Chamberlain even went so far in his dangerous schemes, as to have a regular preconcerted set to with the secretary of the League, and was punished by fine for the assault. After this he was regarded by all not in the secret as the master spirit of the rum party, and as such frequently denounced by the staid townsmen.

At last Chamberlain was warned by his new found friends to leave the place, as they were about to blow up the secretary's grist mill. Chamberlain obeyed the request, but sent word to the League that on such a night four might be expected to rise. A watch was accordingly set on the mill, and one man and a 25 pound keg of powder, with a fuse attached, were taken into custody; but the haul was not yet large enough, and the affair was kept still until the operators had recovered from their fright, and again commenced operations.

A few days since a descent was made upon the haunt of the gang, and eight persons named E. Hubbard, 3d, Ohio Hamilton, B. L. Kingsley, A. L. Richards, Lewis Gibbs, Rufus Casp, John Gardner, and Albert Nooney, were arraigned before a magistrate in Springfield, on complaints embracing each of the principal outrages committed in Chester. They were in high spirits when first arrested, but on learning the shrewd deception which had been practised upon them by their quondam friends, they became "quite chop-fallen." As many persons of standing are also under suspicion, who probably fear further disclosures, there was no difficulty in obtaining bail, and the accused are now at liberty, awaiting trial at the next term of court.

The Prairie du Chien Courier, an independent paper, but strongly inclined to favor the democratic side of politics when there is any possible chance of doing so, makes the following plain, common sense remarks about the veto of the river and harbor appropriation bill &c.—

Janesville Gazette.

Strongly inclined to favor the democratic side of politics when there is any possible chance, are we? Some of the members in good standing of the democratic church here, have their doubts on that subject, neighbor. We would like to remove those doubts if the democratic administration would only throw out one of the chances above alluded to. Of president Pierce & Co., why won't you give a fellow a chance now and then. We are very anxious to praise some act of yours, but you studiously put it out of our power.—*Prairie du Chien Cour.*

A SUCCESSFUL PLEA OF SICKNESS.—A young lad, not more than eleven years of age, named Patrick Henon, was arrested some days since and lodged in jail, charged with rifling the money draw of John McCallray, at the Little Bazaar. He was to have been tried yesterday at the court sessions. At the opening of the court he was brought in with the other prisoners, and after being there a short time, he complained of being ill and unable to sit up. He was conveyed back to jail, a physician sent for, who administered to him hot drops. His mother acted as nurse, and she pronounced it a case of cholera, when she commenced rubbing the lad and administering the usual remedies as are proscribed in such cases. He continued to grow worse under the treatment, when his cure was pronounced a hopeless one. An officer was dispatched from the jail to the courtroom, and upon his representations to the district attorney, that Patrick could not live an hour, he moved that a *nolle prosequi* be entered in his case, which was accordingly granted by the court. The tidings of his discharge were speedily conveyed to the mother, who took up the wayward boy in her arms, he pretending to be unable to walk, from the jail. She carried him a short distance, until they were beyond sight of those standing on the steps leading to the jail, when the darling boy sprang from her arms and ran off in great glee. The trick was handsomely played off by both parties, and when told in court the duped officer appeared to be deeply mortified.—*Albany Journal.*

THE FIRES WEST.—We learn from the Cleveland Plain Dealer that the pine swamp west of Hudson has been burning for several weeks, and within a few days has done an immense amount of damage. Whole meadows to the amount of several hundred acres have burnt out four feet deep, and will, of course, when the swamp fills with water, become a lake. The fire would commence eating under, till whole acres were undermined, when a vent would occur, through which the flames would rush out for many feet in height and the whole ground, timber and all, would be consumed. Large trees would fall in a mass and be burned to ashes.

President Pierce, of the Hudson college, was in the vicinity when he saw some trees apparently on solid ground, but a short distance from him, commence tumbling, when he started to run. They continued to fall behind him, and so near was he at one time to the danger, that the limbs of a falling tree brushed him. The inhabitants are in the utmost consternation, not knowing where or when this terrible state of things will end. Like calamities never before visited this country, and unless we soon have rain, the situation of many neighborhoods will be worse than if they lived in the midst of earthquakes. God grant rain may soon come.

The Philadelphia Ledger states that a deposit was made at the mint on Saturday last, of about five thousand dollars worth of the melted gold taken from the recently raised wreck of the unfortunate steamer Erie, which was burnt and sunk on Lake Erie some thirteen years ago. There was found mixed with the melted money part of an old German lock, the material parts of which were in a pretty good state of preservation.

The railway across the Apennines, in Italy, extending from Turin to Genoa, is said to have the greatest grade in Europe. The high grade is near the town of Gleni, the ascent being one hundred and eighty feet to the mile. Two locomotives drawing a train of six loaded gravel cars, weighing altogether one hundred tons, ascended the grade at a time when the rails were exceedingly wet and slippery, at a speed of nineteen miles per hour. This is a feat unprecedented in the annals of railway history.

The library of Gen. Davis, at Troy, was entirely destroyed on Friday last during the great fire. His collection of political works, pamphlets and papers, numbering over 4000 volumes, one of the most rare and valuable in the country, was entirely destroyed. He had been many years making the collection, and in it were documents that cannot be replaced.

ANTIQUATED.—In 1822 Lewis Withrop caught a terrapin on the farm of Zadock Richards, in Jackson county, Ia, and cut his name and date on its back. This singular animal has been seen on the same farm a number of times every year since; and only a few days ago it was examined, and the name and date carved on its back are quite plain. Though thirty-two years have elapsed since the mark was made, the animal has seemingly undergone no change. Its plods along as ever, showing no more signs of old age than he did when first seen.

STEAMBOAT ACCIDENT.—An accident happened to the machinery of the steamboat Hendrik Hudson as she was leaving her pier, in Albany, on Friday evening, with 400 passengers, and she was towed to New York by the steamboat Troy, reaching her dock on Saturday afternoon. Indignation meetings were held and resolutions passed on both boats, in which their officers were severely censured,—those of the Hendrik Hudson for refusing to give the passengers their meals, or allow them to land, and those of the Troy for converting a passenger boat into a tow boat, causing a day's delay, and serious loss to some of the passengers. It was said the machinery was known beforehand to be injured, and that there was a previous understanding between the two boats.

Cincinnati, Aug. 20.

Advices from Tennessee, Alabama and Georgia speak favorably of the corn crops, and throughout most of the western states there have been rains, which have been greatly improved the condition of the crops. The indications now are, that taking the country through, the yield will not be much below a fair average.

COSTLY.—In the discussion of the navy appropriation bill in the senate, the fact was disclosed that the expenses of chartering and supplying fuel, etc., for a steamer to suppress filibustering in Lower California amounted to \$113,638. The rate paid for the boat was \$1,500 a day, and the coal cost \$13 per ton! The senate rejected an amendment to pay the amount it being more than the whole value of the steamer.

It is expected that before the first day of January next, not less than twenty thousand men from the free states will be in Kansas or on the way thither. Mr. Thayer of Worcester, an active member of the emigrant aid society, recently stated that an emigrant can be sent from Boston to Kansas for \$25, and this price will be reduced. Where the emigrants carry heavy chests of mechanics' tools, not an agent on the line would take compensation. "All the agents," said Mr. T., "are on our side."—*Boston Atlas.*

ANOTHER STATE.—Another star is soon to be added to the galaxy of our parti-colored constellations. The people on the southern shore of Lake Superior are again agitating the question, of forming a new state out of portions of Michigan, Wisconsin, and Minnesota, to be called "Superior." About two years ago a similar project was unsuccessful; but with a strong anti-slavery majority in the next congress we see nothing to prevent the addition of another star to our band of northern states; one that will shine with no dubious or reflecting light,—but one who will be a beacon light on the outer wall of freedom's temple.

YOUNG LADIES' SEMINARY.

MRS. E. FORD, Principal.

MISS MARY E. WRIGHT, Assistant Principal.

A SCHOOL FOR YOUNG LADIES.

It will be opened in this city on Tuesday, Sept. 6th, at the residence of S. Ford, Jr., on Jackson street, three doors south of the Methodist church.

The course of study to be pursued will be thorough, embracing all the branches usually taught in seminaries of this kind. Three ladies who came well recommended as teachers will be associated with the principal in the care of the school.

This seminary is intended to be a permanent institution, and no pains or expense will be spared in making it worthy of the patronage of the community.

COLLEGIATE INSTITUTE.—The exercises at the opening of this institute yesterday morning were of an interesting character. There was a good attendance of our citizens, and after the introduction of Mr. Gorton, the principal, by the Rev. Mr. Dearborn, addresses were made by Dr. C. G. Pease, Messrs. S. A. Hudson, Geo. S. Dodge, J. T. Wright, J. H. Budd, and the Rev. Mr. Foote. The names of 60 or 70 students were enrolled, and several others who have applied for admission were not present. The foundation of a commodious building to be used as a boarding house will be laid this fall, and altogether the institute opens under very encouraging prospects. We hope the expectations of its friends may be fully realized, and thus meet one of the most obvious wants of the city.

NEBRASKA AND KANSAS.—The area of Nebraska is 842,438 square miles, equal to 219,160,320 acres; Kansas has an area of 126,233 square miles, or 80,821,120 acres. Says the Boston Atlas:—This is the country which the slavery propagandists of the south and their plant tools at the north, wish to have devoted to an institution which withers and blights every fair land in which it takes root. Shall this vast, extensive and fertile country be the land of freedom or of bondage? This is the question now submitted to the American people. Consider, for a moment, the vast extent of the territories. Kansas would make some seventeen states and Nebraska some twenty-eight states as large as Massachusetts. This is the territory which Franklin Pierce and Stephen A. Douglas would devote to slavery, for the purpose of increasing their prospects for the presidency. This is the vast domain which the hired presses of the administration are willing to devote to human servitude to show their devotion to the power that feeds them.

CONGRESSIONAL PROSPECTS.—It seems to be the current impression that S. M. Booth is likely to get the nomination for congress this fall. He is working like a beaver for it. We think such a nomination would be most appropriate—abhorrent as would be his election to the feelings of the respectable portion of our people. It would be a legitimate consequence of the inexcusable folly of some of the anti-Nebraskaites—a pill which, though bitter to take, is the best we can imagine to cure the disease.

WE ARE NOT RESIDENTS IN THE FIRST CONGRESSIONAL DISTRICT, and can occupy our time fully in looking after matters at home; but should Mr. Booth have been put in nomination by the convention which met at Rochester yesterday, we agree with the News that it would in one respect be a "most appropriate" selection. The democratic party by its repeal of a sacred compact, and a most wanton agitation of the peace of the country, has forfeited all claim to the confidence of the people or the forbearance of its foes. If Mr. Booth is the "bitter pill" that can be administered to the party, and its defeat by him would be more humiliating than by any other man in the district, the News and its faction of the party have provoked and richly merit the dose. A violent disease often requires a violent remedy. We could pick for ourselves a candidate more to our taste than the editor of the Free Democrat, but none whose election would be more distasteful to the Nebraska democracy of the state, and so far as that portion of the party is concerned, we could enjoy any amount of retribution inflicted on it. So gentlemen Nebraskaites, if Mr. Booth is your next representative in congress, don't blame anybody but yourselves and try and see if you can't learn something from the lesson it teaches.

"PROGRESS" OF SUBSCRIPTIONS.—We learn that up to Saturday last, \$180,000 had been subscribed in Green county to the Southern Wisconsin railroad.

LATER.—We further hear that up to the evening of the 6th \$230,000 had been subscribed. Of this, \$30,000 were subscribed at Clarence on Tuesday.

THE NEW YORK TRIBUNE has diminished the size of its daily issue, in consequence of a decrease in its advertising department. The publishers hope that with a return of more prosperous times, and the discovery of some cheaper material for paper than that now used, they will be enabled to go back to the old size.

YELLOW FEVER IN NEW ORLEANS.—For the week ending the 20th August, there were 118 deaths, being an increase of 53 over the preceding week. The whole number of deaths from other diseases was 140. On the evening of the 21st, there were 150 cases of the fever under treatment at the charity hospital.

THE EARNINGS OF THE GALONA AND CHICAGO RAILROAD for the month of July last, was—
Freight.....\$58,456 02
Passengers.....36,000 88
Mails.....1,063 38

A COMPANY OF EMIGRANTS from Massachusetts to Kansas, to the number of about 3000 arrived at Albany, N. Y., at 11 o'clock in the evening, on the 30th ult. They were received by a large crowd at the depot, and conducted to the Delavan House, where a pleasant interview was held until after midnight.

PROMOTION.—H. O. Wilson has been promoted from a local to a general agent for this state for the Michigan Southern railroad. The appointment is a good one for the agent and the road.

TALL RUNNING.—At a foot race at the New York Hippodrome on the night of the 8th inst., Barlow ran two miles in eleven minutes and forty-three seconds, the quickest time on record.

WISCONSIN ANNUAL CONFERENCE OF THE M. E. CHURCH.

SEVENTH DAY.
WEDNESDAY, SEPT. 6, 1864.

Conference convened at 8 o'clock. Bishop Morris in the chair. The session was opened with reading the scriptures, singing, and prayer, by Rev. Mr. Martin.

The minutes of the last session were read, corrected and approved.

The conference then took up the 1st question again. C. M. Webster, G. W. Richardson, Jas. Sims, Harvey Palmer, Robert Langley, Samuel Dodge, John W. Waterbury, Wm. H. Bunce, Chas. C. Kidder, Ezra Tucker, J. W. Lyman, Geo. H. Fox, Aaron H. Annis, J. W. Donaldson, J. B. Annette, Jas. D. Requa, E. W. Stevens, Edwin Buck, Ransom Gould, Samuel Steiner, were received on trial.

J. S. Johnson was re-admitted.

A call was then made for the usual church statistics. Reports from the different churches showed a fair increase in membership, local preachers, churches, and parsonages.

The case of afflicted elders was then taken up. The past year has been a time of general health, peace, and prosperity among them.

A. B. Randal was granted a supernumerary relation.

The committee on education then presented the remainder of the report.

The conference after deciding to have another session at 2 o'clock, adjourned to that hour.

E. C. JONES, Conf. Reporter.

EDITORS OF THE GAZETTE:

Permit me through your paper to call the attention of the farmers and mechanics of Rock and adjoining counties, to the fact that the annual fair of the Rock county agricultural society and mechanic's institute, will be held at the "fair grounds" in Janesville, on Wednesday and Thursday of next week, it being the 13th and 14th days of September, 1864.

The officers of the society are making preparations for one of the most splendid and attractive fairs ever got off in Wisconsin. From the known ability, energy and perseverance of the present executive committee, we have the surest guarantee that every thing on their part will be done right, and that they will make the approaching anniversary of the society a memorable occasion—one that will eclipse all its predecessors, and challenge all subsequent ones.

Now, farmers of Rock, Walworth, Green, Dane, and other adjoining counties, shall we respond, and go up en masse and celebrate the festival? Let us go up with our cattle, horses, and sheep, our pigs and poultry, our butter and cheese, our farm implements and mechanical productions, our domestic manufactures, specimens of the fine arts, exhibitions of the skill and industry of our wives and daughters, both in the department of needle-work and forgetting not the gifts of Flora and Pomona, thus incontrovertibly demonstrating that we can get up a "state fair" just here in Rock county.

We would not say it boastfully, but we believe the fact should be published, that we have the material, the appliances, both natural and artificial, animals and products; men, women and children, to get up and carry through one of the best agricultural and mechanical exhibitions ever attempted west of the lakes, and would invite all those who may have doubts upon the subject to come out next week and judge for themselves.

In conclusion let me call particular attention to the list of splendid prizes offered by the society for the year 1864. The premiums, to be sure, are only a secondary object, and we merely allude to them to show that our society is a "living, breathing reality." Come up, friends. We shall have a good time!

Yours as ever, for Agriculture and the Mechanic Arts.

J. F. WILLARD.

We fear that the people of this county are not properly seconding the efforts of the officers of the society, and that consequently the fair will not be what it might and ought to be. There can be no question as to the fact that abundant material exists to make an exhibition of the products of the county creditable to the county and the exhibitors. If the coming fair shall be in any sense a failure, or shall not contrast favorably with any of its predecessors, the source of the fault need not be long looked for. The time for preparation is short, and those who intend doing anything should be about it at once.

ADDITIONAL SLAVE STATES.—The Journal of Commerce is very positive that the position taken at the Saratoga convention against admitting any more slave states cannot be carried into effect, for the reason that we have made a compact with Texas to admit certain portions of her territory with or without slavery, as the inhabitants might desire. That is a pretty device for these men to bring forward who have been prominent in overthrowing the compact of 1820. The very same impudent pro-slavery advocates who have destroyed the constitutional and hitherto sacred compromise under which Missouri was admitted into the union, now contend that the bargain with Texas is inviolable. We trust that northern men will stand up firmly against the admission of another slave state under any circumstances. We have to meet this element at every point, or we will obtain a signal advantage over freedom. If we yield to it longer, we shall have to surrender all the principles which lie at the foundation of a republican government. —Newark Mercury, Aug. 26.

FITZ-HENRY WARREN IN THE U. S. SENATE.—The Whig politicians in Washington, taking it for granted that the newly elected Iowa legislature will surely decapitate senator Dodge, whose term of service expires on the 4th of March next, are in ecstasies at the prospect of the election of Mr. Fitz-Henry Warren in his stead. If they got him there he will surely prove the ablest right-hand man whom senator Seward will have in the body. He is intelligent and indefatigable, knowing every body and everything in a political way, worth knowing. Personally, he is very popular.

NEWS BY THE PACIFIC.—We give the Particulars by the arrival of the Pacific announced yesterday.

Letters from Bomersund give the details of the capture of that fortress. The effect of the guns upon the walls was terrible, and large blocks of granite which appeared impregnable fell out in masses. The English loss was only one, and the enemy had 8 killed and 7 wounded. The 2000 prisoners are to be sent to the Downs to await orders. Among them are General Bodisco and the Governor and Lt. Gov. of the fortress.

Letters from Jassa say the Russian troops will all have crossed the Pruth by the 1st September.

The cholera was making awful havoc among the allied troops. The latest advices put down the French loss by cholera about 700, and the English at 600.

The Austrian corps was marching upon Wallachia at the latest accounts.

The health of the combined armies was improving.

Gallipoli is nearly free from cholera.

The Russians suffered terribly on their route towards the Pruth, and took with them 24,000 sick. Prince Paskiewitch was to resume the principal command of the army, in the place of Gortschakoff, who was to have the chief direction of the troops. About 70,000 entered Bessarabia.

The Prussian government insists that the negotiations between the western powers and Russia shall be submitted to the diet out of Austria, but Austria refused.

The Russian head-quarters have been established at Ismail.

The Austrians have commenced crossing the frontier at Varna and Servia. Henry Waterston & Son of Vienna, have failed for five millions of florins. The failure of Monpurgio & Co., of London, is also anticipated here.

Archangel is effectually blockaded.

All quiet in Spain.

Trade at Manchester quiet and buyers not disposed to make further contracts.

The following dispatch, announcing the capture of the important place, has been received by the English and French governments' admiralty:—
SANGONO, August 19.—A telegraph dispatch has been received at the admiralty office. This was from the flag, and sent by Sir Charles Napier, announcing that he forsook Bomersund had surrendered to the allied forces, at 12 P. M. of the 14th. Upwards of 2000 prisoners laid down their arms and embarked. Loss on either side was inconsiderable.

The Douglas meeting at Chicago, on Friday night, was an uproarious affair. The papers say that there were nearly five thousand persons in attendance. They uncivilly hissed him down two or three times. His speech was rather the answer to inquiries, from all sides, than a regular speech. They should have heard him quietly, and then rebuked him by voting down approbatory resolutions. But the indignation is so intense at his treacherous course in congress, that it was not restrainable within the bonds of decorum. It will be remembered that Douglas not only voted to open thirteen states, as large as New York, to the introduction of slavery, but he also voted against the harbor and river bill; and cordially voted to give \$10,000,000 to Santa Anna, in order to extend our southern boundary. He also favors a war for Cuba or its purchase for \$100,000,000 or more. All these causes combined, renders the feeling of indignation against him intense. It should also be borne in mind that his few followers in this city favor the same anti-democratic, or rather Russian principles. —Wisconsin.

AN UNSELFISH PRAYER.—A correspondent writing from Florida, gives an incident in relation to a prayer offered by request during the severe drought, by a venerable Methodist preacher who bore no good will to the baptists. His prayer was somewhat remarkable for its unselfish tone, and ran this wise:—
"Let it rain, beginning at my plantation in Hamilton county, coming down to the religious neighborhoods of Columbia and Nassau, where immersion is not practiced, and reaching Black Creek, even Black Creek, and bringing forth in abundance, none of your little 'nubins,' however, but long ears, as long as this good right arm." —Natl. Intell.

WATER CURE ESTABLISHMENT.—A gentleman is in our village making preparations to open a water cure establishment at "Devil's Lake." No better place could be found anywhere for an establishment of the kind. —Baraboo Standard.

There could not be found a more charming spot for such an establishment in the whole union. The water and scenery is incomparable and the rattle makes very large. —Wis.

The Newark, N. Y., Mercury publishes an account of the discovery by the parents of a child stolen from them two years since in New York. The mother having got a clue as to the whereabouts of her stolen daughter, proceeded to the house of the persons who abducted her—and who were bringing her up as their own—and upon knocking at the door for admittance it was opened by her own child. The recognition was mutual and joyous. The mother demanded her daughter, the woman of the house resisted, but the true parent carried off her long lost, and the parents and child were overjoyed.

A NOVEL WAY TO RAISE THE WIND.—One day last week, a gentleman-looking young fellow, about twenty-two or twenty-three years of age, called on the sexton of Cave Hill cemetery, and ordered a child's grave to be dug. Having seen the sexton break ground, he remarked that he would then pay for the work, and tendered a ten dollar note receiving eight dollars in change. As no child's funeral made its appearance during that day, nor the next, nor the next, the sexton suspected something was wrong and upon examining found his ten dollars counterfeited. So he is out of pocket to that amount, besides the labor of digging the grave. —Louisville Courier.

Soon after the Madison convention, it was claimed by some of the Nebraska presses that there were 18 papers in this state that supported the Nebraska bill and slavery extension. This statement we recorded for future reference. How many papers are there now which support Nebraska? "Such another getting down stairs," &c. —Monroe Sentinel, democrat.

An old woman at New Haven applied to her doctor for some imaginary disorder, and received a box of pills, for which she paid 60 cents. She took some doses and got well, as if by magic. She carefully kept the remainder, but somehow the box got knocked out of the window. It was several weeks before she discovered her loss, when on going down under the window in the garden, she found that all her pills had sprouted! They were only pens in disguise.

CHICAGO & MILWAUKEE R. R.—This company will locate their depot, about one block from that of the Illinois & Wisconsin railroad near Kinzie street bridge. —Chicago Democrat.

TO DESTROY VERMIN ON ANIMALS AND TREES.—G. W. Kendall, one of the editors of the New Orleans Picayune, in his letter from Paris to that journal, gives the subjoined recipe for destroying vermin on animals, plants, and trees. The remedy is simple, easy of application, and worthy of at least a trial:

The celebrated Raspail, well known as one of the best French chemists, has given an important recipe for destroying vermin on animals, and also on plants and trees—important, at least, if true. The process he recommends is to make a solution of aloes—one gramme of that gum to one litre of water, French measure; and by means of a large brush, to wash over the trunks and branches of trees with this solution. This simple process, says Raspail, will speedily destroy all the vermin on the trees, and will effectually prevent others from approaching. In order to clear sheep and animals with long hair they must be bathed with the solution, well washed with it. Raspail mentions several trials he has made with this mixture, all of which have been attended with the most complete success; and he recommends it very strongly to general use. I can only say that if a simple solution of aloes and water will kill or drive away ants from peach and other trees in Texas and other parts of the south, the discovery will be hailed with pleasure. At all events, there is no harm in trying the experiment. A French litre is a little less than three of our pints; a gramme is the five-hundredth part of a French pound. A little aloes, if used at all, will thus go a great way. Were I troubled with ants and other vermin in Texas, (Mr. Kendall having a large flock of sheep in Texas,) I should certainly try Raspail's solution.

If anything was necessary to show that the administration of Franklin Pierce had become desperate, we should only have to look at his official organ, the Union. Terrified and alarmed at the great movement which is going on throughout the whole northern section of this country, it vents its spleen upon the whigs, and calls them all manner of hard names. But not satisfied with this, it has recourse to downright misrepresentation and falsehood. The Nebraska party haunts its disordered imagination, and it finds that like the ghost of Banquo, it will not down at its bidding; and consequently it attempts to gain consolation by stating what every man of observation knows to be untrue. Hear its deliberate falsehood.

"The Nebraska bill has been a law a few brief months, and, save among those whose trade it is to assail the Union, and to seize every pretext to infuriate the south, the public mind is rapidly reaching the conclusion, that it was a wise, patriotic, and necessary act of congress."

Where does the Union find its evidence for this false assertion? In the defeat of the administration in the president's own state? Or does it look to the more recent defeats of the democratic party in Missouri and Iowa. If the public mind rapidly reaches any more such conclusions, the administration will soon find itself as powerless as were the mosquitoes at Greytown. —Boston Atlas.

THE USURY LAWS.—The operation of the usury laws in this state has had for many years a prejudicial effect upon its commercial movements. They restrict the free use of capital by preventing loans by capitalists when risks are, as at present, extra hazardous. There are certain times in commercial history when the loan of money is accompanied with a greater risk than under ordinary circumstances, and the premium (or rate of interest) on loans, during a period of financial difficulty, should be commensurate with such extra hazard. —Courier and Enquirer.

Upon the above the Albany Journal makes the subjoined pertinent and forcible comments:—
Our usury laws were so modified, under malign influences, as to allow railroad companies "the largest liberty" in negotiating loans. In this respect therefore, capitalists have been free to take as many "extra hazardous risks" as they pleased. Railroad bonds have, like produce and merchandise, been matters of traffic between seller and buyer. Or, like water, (in free trade parlance,) they have been "seeking their level," and are, we may add, pretty sure to find what they were seeking!

Whether this measure of experience, in the wisdom of "free trade money," will satisfy capitalists, can be best determined when their bond account has been closed.

We will not now assume, as we might without fear of contradiction, that if railroads had not been exempted from the effect of the usury laws, we should have escaped the financial crisis now pressing upon us, because the lightest only of these evils have come. The worst, however, is at hand, in the failure to pay interest, the foreclosure of mortgages, the sale of roads, and a train of consequences which we will not anticipate.

DERANGED MAILS.—We saw at the post office this morning fourteen canvass bags filled with bound books, and addressed to Augustus Caesar Dodge of Burlington, Iowa.

No wonder mails are deranged when they are burdened with whole libraries. Augustus Caesar, however, having met his Brutus, we shall not hear scolden from him hereafter. —Chicago Journal Aug. 16th.

And no wonder the expense of the post office department exceed its revenues, when tons of free matter are carried to almost every section of the union, under the frank of a member of congress. And this is not the sole evil—Just so long as members of congress can "dead-head" through the post offices, whatever they please just so long will they continue to vote themselves books and other articles which they ought to pay out of their own and not the pockets of the people. In the civil and diplomatic appropriation bill passed by the last congress, the sum of \$218,725 30, was directed to be taken from the treasury, to pay for books for members—more than \$1,000 to each member. There is but one remedy for this; cut off the privilege of the "frank" from our members of congress and the book plunder will stop. If our members of congress are not sufficiently compensated for their service, raise the amount of compensation by law; but let a stop be put to this wholesale system of plunder. —Albany Register.

The administration papers have but very little to say about Iowa. The result in that state seems to have paralyzed them. Even the Union, whose impudence seemed exhausted, mourns in silence. And well it may; for since the passage of the Nebraska swindle, the administration has lost six United States senators, five states, and half a score of members of the house of representatives! "Popular sovereignty" seems to be illustrating its potency in a manner quite unexpected to those who applied the principle for the purpose of extending slavery. However, as they sowed the wind it is pleasant to see them reaping the whirlwind. Where is Douglas? —Albany Journal.

The Niagara Democrat, N. Y., says the yield of wheat upon some farms in that county will be as low as five bushels to the acre. As the threshing proceeds, the farmers find their crop even shorter than was anticipated.

ENGLAND'S HUMANITY.—It is generally known that savages were employed by the king of England, George III., and paid at so much per scalp of man, woman and child, during the revolutionary war. A few items from this terrible trade in human flesh may perhaps interest some of our readers, and show how this paternal king strove to crush out the noble spirit of independence of our early heroes. Here is a list of a number of packages that were sent by one James Boyd, from a Captain Crawford, to the British Governor of Canada, Col. Hamilton. These packages of scalps were found among the baggage of the English army, after the defeat of Burgoyne, cured and dried, with Indian marks upon them. The letter accompanying them ran thus:

Package 1. Containing forty-three scalps of congress soldiers, killed in different skirmishes, stretched on black hoops, four inches in diameter.

Package 2. Containing ninety-eight scalps of congress soldiers, on green hoops, to show they were killed in the fields.

Package 3. Containing one hundred and two farmers' scalps, eighteen of them marked with yellow flames, to signify that they were burned alive.

Package 4. Containing eighty-eight scalps of women, hair long and braided, to show that they were mothers.

Package 6. Containing one hundred and ninety-three scalps of boys of various ages, on small green hoops.

Package 7. Two hundred and eleven girls' scalps, big and little, on small yellow hoops.

Such was the stuff of which English royalists were made in the "days which tried men's souls."

YOUNG LADIES' SEMINARY.

MRS. E. FORD, Principal.

A SCHOOL FOR YOUNG LADIES.

will be opened in this city on Tuesday, Sept. 6th, at the residence of S. Ford, Jr., on Jackson street, three doors south of the Methodist church.

The course of study to be pursued will be thorough, embracing all the branches usually taught in secondary schools of this kind. Those who come well recommended as teachers will be associated with the principal in the care of the school.

This seminary is intended to be a permanent institution, and as such will be sustained in making it worthy of the patronage of the community.

TERMS:

COLLEGIATE INSTITUTE.—The exercises at the opening of this institute yesterday morning were of an interesting character. There was a good attendance of our citizens, and after the introduction of Mr. Gorton, the principal, by the Rev. Mr. Dearborn, addresses were made by Dr. C. G. Pease, Messrs. S. A. Hudson, Geo. S. Dodge, J. T. Wright, J. H. Budd, and the Rev. Mr. Foote. The names of 60 or 70 students were enrolled, and several others who have applied for admission were not present. The foundation of a commodious building to be used as a boarding house will be laid this fall, and altogether the institute opens under very encouraging prospects. We hope the expectations of its friends may be fully realized, and thus meet one of the most obvious wants of the city.

NEBRASKA AND KANSAS.—The area of Nebraska is 842,438 square miles, equal to 219,160,320 acres; Kansas has an area of 126,283 square miles, or 80,821,120 acres. Says the Boston Atlas:—This is the country which the slavery propagandists of the south and their plant tools at the north, wish to have devoted to an institution which withers and blights every fair land in which it takes root. Shall this vast, extensive and fertile country be the land of freedom or of bondage? This is the question now submitted to the American people. Consider, for a moment, the vast extent of the territories. Kansas would make some seventeen states and Nebraska some twenty-eight states as large as Massachusetts. This is the territory which Franklin Pierce and Stephen A. Douglas would devote to slavery, for the purpose of increasing their prospects for the presidency. This is the vast domain which the hired presses of the administration are willing to devote to human servitude to show their devotion to the power that feeds them.

CONGRESSIONAL PROSPECTS.—It seems to be the current impression that S. M. Booth is likely to get the nomination for congress this fall. He is working like a beaver for it. We think such a nomination would be most appropriate—abhorrent as would be his election to the feelings of the respectable portion of our people. It would be a legitimate consequence of the inexcusable folly of some of the anti-Nebraskaites—a pill which, though bitter to take, is the best we can imagine to cure the disease.

WE ARE NOT RESIDENTS IN THE FIRST CONGRESSIONAL DISTRICT, and can occupy our time fully in looking after matters at home; but should Mr. Booth have been put in nomination by the convention which met at Rochester yesterday, we agree with the News that it would in one respect be a "most appropriate" selection. The democratic party by its repeal of a sacred compact, and a most wanton agitation of the peace of the country, has forfeited all claim to the confidence of the people or the forbearance of its foes. If Mr. Booth is the "bitter pill" that can be administered to the party, and its defeat by him would be more humiliating than by any other man in the district, the News and its faction of the party have provoked and richly merit the dose. A violent disease often requires a violent remedy. We could pick for ourselves a candidate more to our taste than the editor of the Free Democrat, but none whose election would be more distasteful to the Nebraska democracy of the state, and so far as that portion of the party is concerned, we could enjoy any amount of retribution inflicted on it. So gentlemen Nebraskaites, if Mr. Booth is your next representative in congress, don't blame anybody but yourselves, and try and see if you can't learn something from the lesson it teaches.

"PROGRESS" OF SUBSCRIPTIONS.—We learn that up to Saturday last, \$180,000 had been subscribed in Green county to the Southern Wisconsin railroad.

LATER.—We further hear that up to the evening of the 6th \$230,000 had been subscribed. Of this, \$30,000 were subscribed at Clarence on Tuesday.

THE NEW YORK TRIBUNE has diminished the size of its daily issue, in consequence of a decrease in its advertising department. The publishers hope that with a return of more prosperous times, and the discovery of some cheaper material for paper than that now used, they will be enabled to go back to the old size.

YELLOW FEVER IN NEW ORLEANS.—For the week ending the 20th August, there were 118 deaths, being an increase of 53 over the preceding week. The whole number of deaths from other diseases was 140. On the evening of the 21st, there were 150 cases of the fever under treatment at the charity hospital.

THE EARNINGS OF THE GALONA AND CHICAGO RAILROAD for the month of July last, was—
Freight.....\$58,456 02
Passengers.....36,000 88
Mails.....1,063 38
Total.....\$95,519 21

A COMPANY OF EMIGRANTS from Massachusetts to Kansas, to the number of about 3000 arrived at Albany, N. Y., at 11 o'clock in the evening, on the 30th ult. They were received by a large crowd at the depot, and conducted to the Delavan House, where a pleasant interview was held until after midnight.

PROMOTION.—H. O. Wilson has been promoted from a local to a general agent for this state for the Michigan Southern railroad. The appointment is a good one for the agent and the road.

[Reported for the Janesville Gazette.]
WISCONSIN ANNUAL CONFERENCE OF THE M. E. CHURCH.
SEVENTH DAY.
WEDNESDAY, SEPT. 6, 1864.
Conference convened at 8 o'clock. Bishop Morris in the chair. The session was opened with reading the scriptures, singing, and prayer, by Rev. Mr. Martin.
The minutes of the last session were read, corrected and approved.
The conference then took up the 1st question again. C. M. Webster, G. W. Richardson, Jas. Sims, Harvey Palmer, Robert Langley, Samuel Dodge, John W. Waterbury, Wm. H. Bunce, Chas. C. Kidder, Ezra Tucker, J. W. Lyman, Geo. H. Fox, Aaron H. Annis, J. W. Donaldson, J. B. Annette, Jas. D. Requa, E. W. Stevens, Edwin Buck, Ransom Gould, Samuel Steiner, were received on trial.
J. S. Johnson was re-admitted.
A call was then made for the usual church statistics. Reports from the different churches showed a fair increase in membership, local preachers, churches, and parsonages.
The case of afflicted elders was then taken up. The past year has been a time of general health, peace, and prosperity among them.
A. B. Randall was granted a supernumerary relation.
The committee on education then presented the remainder of the report.
The conference after deciding to have another session at 2 o'clock, adjourned to that hour.
E. C. JONES, Conf. Reporter.

EDITORS OF THE GAZETTE:—
Permit me through your paper to call the attention of the farmers and mechanics of Rock and adjoining counties, to the fact that the annual fair of the Rock county agricultural society and mechanic's institute, will be held at the "fair grounds" in Janesville, on Wednesday and Thursday of next week, it being the 13th and 14th days of September, 1864.

The officers of the society are making preparations for one of the most splendid and attractive fairs ever got off in Wisconsin. From the known ability, energy and perseverance of the present executive committee, we have the surest guarantee that every thing on their part will be done right, and that they will make the approaching anniversary of the society a memorable occasion—one that will eclipse all its predecessors, and challenge all subsequent ones.

Now, farmers of Rock, Walworth, Green, Dane, and other adjoining counties, shall we respond, and go up en masse and celebrate the festival? Let us go up with our cattle, horses, and sheep, our pigs and poultry, our butter and cheese, our farm implements and mechanical productions, our domestic manufactures, specimens of the fine arts, exhibitions of the skill and industry of our wives and daughters, both in the department of needlework and forgetting not the gifts of Flora and Pomona, thus incontrovertibly demonstrating that we can get up a "state fair" just here in Rock county.

We would not say it boastfully, but we believe the fact should be published, that we have the material, the appliances, both natural and artificial, animals and products; men, women and children, to get up and carry through one of the best agricultural and mechanical exhibitions ever attempted west of the lakes, and would invite all those who may have doubts upon the subject to come out next week and judge for themselves.

In conclusion let me call particular attention to the list of splendid prizes offered by the society for the year 1864. The premiums, to be sure, are only a secondary object, and we merely allude to them to show that our society is a "living, breathing reality." Come up, friends. We shall have a good time!

Yours as ever, for Agriculture and the Mechanic Arts.
J. F. WILLARD.

We fear that the people of this county are not properly seconding the efforts of the officers of the society, and that consequently the fair will not be what it might and ought to be. There can be no question as to the fact that abundant material exists to make an exhibition of the products of the county creditable to the county and the exhibitors. If the coming fair shall be in any sense a failure, or shall not contrast favorably with any of its predecessors, the source of the fault need not be long looked for. The time for preparation is short, and those who intend doing anything should be about it at once.

ADDITIONAL SLAVE STATES.—The Journal of Commerce is very positive that the position taken at the Saratoga convention against admitting any more slave states cannot be carried into effect for the reason that we have made a compact with Texas to admit certain portions of her territory with or without slavery, as the inhabitants might desire. That is a pretty device for these men to bring forward who have been prominent in overthrowing the compact of 1820. The very same impudent pro-slavery advocates who have destroyed the constitutional and hitherto sacred compromise under which Missouri was admitted into the union, now contend that the bargain with Texas is inviolable. We trust that northern men will stand up firmly against the admission of another slave state under any circumstances. We have to meet this element at every point, or we will obtain a signal advantage over freedom. If we yield to it longer, we shall have to surrender all the principles which lie at the foundation of a republican government. —Newark Mercury, Aug. 26.

FITZ-HENRY WARREN IN THE U. S. SENATE.—The Whig politicians in Washington, taking it for granted that the newly elected Iowa legislature will surely decapitate senator Dodge, whose term of service expires on the 4th of March next, are in ecstasies at the prospect of the election of Mr. Fitz-Henry Warren in his stead. If they got him there he will surely prove the ablest right-hand man whom senator Seward will have in the body. He is intelligent and indefatigable, knowing every body and everything in a political way, worth knowing. Personally, he is very popular.

NEWS BY THE PACIFIC.—We give the Particulars by the arrival of the Pacific announced yesterday.
Letters from Bomersund give the details of the capture of that fortress. The effect of the guns upon the walls was terrible, and large blocks of granite which appeared impregnable fell out in masses. The English loss was only one, and the enemy had 8 killed and 7 wounded. The 2000 prisoners are to be sent to the Downs to await orders. Among them are General Bodisco and the Governor and Lt. Gov. of the fortress.
Letters from Jassa say the Russian troops will all have crossed the Pruth by the 1st September.
The cholera was making awful havoc among the allied troops. The latest advices put down the French loss by cholera about 700, and the English at 600.
The Austrian corps was marching upon Wallachia at the latest accounts.
The health of the combined armies was improving.
Gallipoli is nearly free from cholera.
The Russians suffered terribly on their route towards the Pruth, and took with them 24,000 sick. Prince Paskiewitch was to resume the principal command of the army, in the place of Gortschakoff, who was to have the chief direction of the troops. About 70,000 entered Bessarabia.
The Prussian government insists that the negotiations between the western powers and Russia shall be submitted to the diet out of Austria, but Austria refused.
The Russian head-quarters have been established at Ismail.
The Austrians have commenced crossing the frontier at Varna and Servia.
Henry Waterston & Son, of Vienna, have failed for five millions of florins. The failure of Monpurgio & Co., of London, is also anticipated here.

Archangel is effectually blockaded.
All quiet in Spain.
Trade at Manchester quiet and buyers not disposed to make further contracts.
The following dispatch, announcing the capture of the important place, has been received by the English and French governments' admiralty:—
SANGUNO, August 19.—A telegraph dispatch has been received at the admiralty office. This was from the flag, and sent by Sir Charles Napier, announcing that he forsook Bomersund had surrendered to the allied forces, at 12 P. M. of the 14th. Upwards of 2000 prisoners laid down their arms and embarked. Loss on either side was inconsiderable.

The Douglas meeting at Chicago, on Friday night, was an uproarious affair. The papers say that there were nearly five thousand persons in attendance. They uncivilly hissed him down two or three times. His speech was rather the answer to inquiries, from all sides, than a regular speech. They should have heard him quietly, and then rebuked him by voting down approbatory resolutions. But the indignation is so intense at his treacherous course in congress, that it was not restrainable within the bonds of decorum. It will be remembered that Douglas not only voted to open thirteen states, as large as New York, to the introduction of slavery, but he also voted against the harbor and river bill; and cordially voted to give \$10,000,000 to Santa Anna, in order to extend our southern boundary. He also favors a war for Cuba or its purchase for \$100,000,000 or more. All these causes combined, renders the feeling of indignation against him intense. It should also be borne in mind that his few followers in this city favor the same anti-democratic, or rather Russian principles. —Wisconsin.

AN UNSELFISH PRAYER.—A correspondent writing from Florida, gives an incident in relation to a prayer offered by request during the severe drought, by a venerable Methodist preacher who bore no good will to the baptists. His prayer was somewhat remarkable for its unselfish tone, and ran this wise:—
"Let it rain, beginning at my plantation in Hamilton county, coming down to the religious neighborhoods of Columbia and Nassau, where immersion is not practiced, and reaching Black Creek, even Black Creek, and bringing forth in abundance, none of your little 'nubins,' however, but long ears, as long as this good right arm." —Nat. Intell.

WATER CURE ESTABLISHMENT.—A gentleman in our village making preparations to open a water cure establishment at "Devil's Lake." No better place could be found anywhere for an establishment of the kind. —Baraboo Standard.
There could not be found a more charming spot for such an establishment in the whole union. The water and scenery is incomparable and the rattle makes very large. —Wis.

The Newark, N. Y., Mercury publishes an account of the discovery by the parents of a child stolen from them two years since in New York. The mother having got a clue as to the whereabouts of her stolen daughter, proceeded to the house of the persons who abducted her—and who were bringing her up as their own—and upon knocking at the door for admittance it was opened by her own child. The recognition was mutual and joyous. The mother demanded her daughter, the woman of the house resisted, but the true parent carried off her long lost, and the parents and child were overjoyed.

A NOVEL WAY TO RAISE THE WIND.—One day last week, a gentleman-looking young fellow, about twenty-two or twenty-three years of age, called on the sexton of Cave Hill cemetery, and ordered a child's grave to be dug. Having seen the sexton break ground, he remarked that he would then pay for the work, and tendered a ten dollar note receiving eight dollars in change. As no child's funeral made its appearance during that day, nor the next, nor the next, the sexton suspected something was wrong and upon examining found his ten dollars counterfeited. So he is out of pocket to that amount, besides the labor of digging the grave. —Louisville Courier.

Soon after the Madison convention, it was claimed by some of the Nebraska presses that there were 18 papers in this state that supported the Nebraska bill and slavery extension. This statement we recorded for future reference. How many papers are there now which support Nebraska? "Such another getting down stairs," &c. —Monroe Sentinel, democrat.

An old woman at New Haven applied to her doctor for some imaginary disorder, and received a box of pills, for which she paid 60 cents. She took some doses and got well, as if by magic. She carefully kept the remainder, but somehow the box got knocked out of the window. It was several weeks before she discovered her loss, when on going down under the window in the garden, she found that all her pills had sprouted! They were only pens in disguise.

CHICAGO & MILWAUKEE R. R.—This company will locate their depot, about one block from that of the Illinois & Wisconsin railroad near Kinzie street bridge. —Chicago Democrat.

TO DESTROY VERMIN ON ANIMALS AND TREES.—G. W. Kendall, one of the editors of the New Orleans Picayune, in his letter from Paris to that journal, gives the subjoined recipe for destroying vermin on animals, plants, and trees. The remedy is simple, easy of application, and worthy of at least a trial:
The celebrated Raspail, well known as one of the best French chemists, has given an important recipe for destroying vermin on animals, and also on plants and trees—important, at least, if true. The process he recommends is to make a solution of aloes—one gramme of that gum to one litre of water, French measure; and by means of a large brush, to wash over the trunks and branches of trees with this solution. This simple process, says Raspail, will speedily destroy all the vermin on the trees, and will effectually prevent others from approaching. In order to clear sheep and animals with long hair they must be bathed with the solution, well washed with it. Raspail mentions several trials he has made with this mixture, all of which have been attended with the most complete success; and he recommends it very strongly to general use. I can only say that if a simple solution of aloes and water will kill or drive away ants from peach and other trees in Texas and other parts of the south, the discovery will be hailed with pleasure. At all events, there is no harm in trying the experiment. A French litre is a little less than three of our pints; a gramme is the five-hundredth part of a French pound. A little aloes, if used at all, will thus go a great way. Were I troubled with ants and other vermin in Texas, (Mr. Kendall having a large flock of sheep in Texas,) I should certainly try Raspail's solution.

If anything was necessary to show that the administration of Franklin Pierce had become desperate, we should only have to look at his official organ, the Union. Terrified and alarmed at the great movement which is going on throughout the whole northern section of this country, it vents its spleen upon the whigs, and calls them all manner of hard names. But not satisfied with this, it has recourse to downright misrepresentation and falsehood. The Nebraska party haunts its disordered imagination, and it finds that like the ghost of Banquo, it will not down at its bidding; and consequently it attempts to gain consolation by stating what every man of observation knows to be untrue. Hear its deliberate falsehood.

"The Nebraska bill has been a law a few brief months, and, save among those whose trade it is to assail the Union, and to seize every pretext to infuriate the south, the public mind is rapidly reaching the conclusion, that it was a wise, patriotic, and necessary act of congress."
Where does the Union find its evidence for this false assertion? In the defeat of the administration in the president's own state? Or does it look to the more recent defeats of the democratic party in Missouri and Iowa. If the public mind rapidly reaches any more such conclusions, the administration will soon find itself as powerless as were the mosquitoes at Greytown. —Boston Atlas.

THE USURY LAWS.—The operation of the usury laws in this state has had for many years a prejudicial effect upon its commercial movements. They restrict the free use of capital by preventing loans by capitalists when risks are, as at present, extra hazardous. There are certain times in commercial history when the loan of money is accompanied with a greater risk than under ordinary circumstances, and the premium (or rate of interest) on loans, during a period of financial difficulty, should be commensurate with such extra hazard. —Courier and Enquirer.

Upon the above the Albany Journal makes the subjoined pertinent and forcible comments:—
Our usury laws were so modified, under malign influences, as to allow railroad companies "the largest liberty" in negotiating loans. In this respect therefore, capitalists have been free to take as many "extra hazardous risks" as they pleased. Railroad bonds have, like produce and merchandise, been matters of traffic between seller and buyer. Or, like water, (in free trade parlance,) they have been "seeking their level," and are, we may add, pretty sure to find what they were seeking!

Whether this measure of experience, in the wisdom of "free trade money," will satisfy capitalists, can be best determined when their bond account has been closed.
We will not now assume, as we might with-out fear of contradiction, that if railroads had not been exempted from the effect of the usury laws, we should have escaped the financial crisis now pressing upon us, because the lightest only of these evils have come. The worst, however, is at hand, in the failure to pay interest, the foreclosure of mortgages, the sale of roads, and a train of consequences which we will not anticipate.

DERANGED MAILS.—We saw at the post office this morning fourteen canvass bags filled with bound books, and addressed to Augustus Caesar Dodge of Burlington, Iowa.
No wonder mails are deranged when they are burdened with whole libraries. Augustus Caesar, however, having met his Brutus, we shall not hear scolden from him hereafter. —Chicago Journal Aug. 16th.

And no wonder the expense of the post office department exceed its revenues, when tons of free matter are carried to almost every section of the union, under the frank of a member of congress. And this is not the sole evil—Just so long as members of congress can "dead-head" through the post offices, whatever they please just so long will they continue to vote themselves books and other articles which they ought to pay out of their own and not the pockets of the people. In the civil and diplomatic appropriation bill passed by the last congress, the sum of \$218,725 30, was directed to be taken from the treasury, to pay for books for members—more than \$1,000 to each member. There is but one remedy for this; cut off the privilege of the "frank" from our members of congress and the book plunder will stop. If our members of congress are not sufficiently compensated for their service, raise the amount of compensation by law; but let a stop be put to this wholesale system of plunder. —Albany Register.

The administration papers have but very little to say about Iowa. The result in that state seems to have paralyzed them. Even the Union, whose impudence seemed exhausted, mourns in silence. And well it may; for since the passage of the Nebraska swindle, the administration has lost six United States senators, five states, and half a score of members of the house of representatives! "Popular sovereignty" seems to be illustrating its potency in a manner quite unexpected to those who applied the principle for the purpose of extending slavery. However, as they sowed the wind it is pleasant to see them reaping the whirlwind. Where is Douglas? —Albany Journal.

The Niagara Democrat, N. Y., says the yield of wheat upon some farms in that county will be as low as five bushels to the acre. As the threshing proceeds, the farmers find their crop even shorter than was anticipated.

ENGLAND'S HUMANITY.—It is generally known that savages were employed by the king of England, George III., and paid at so much per scalp of man, woman and child, during the revolutionary war. A few items from this terrible trade in human flesh may perhaps interest some of our readers, and show how this paternal king strove to crush out the noble spirit of independence of our early heroes. Here is a list of a number of packages that were sent by one James Boyd, from a Captain Crawford, to the British Governor of Canada, Col. Hamilton. These packages of scalps were found among the baggage of the English army, after the defeat of Burgoyne, cured and dried, with Indian marks upon them. The letter accompanying them ran thus:
Package 1. Containing forty-three scalps of congress soldiers, killed in different skirmishes, stretched on black hoops, four inches in diameter.
Package 2. Containing ninety-seven farmers' scalps, on green hoops, to show they were killed in the fields.
Package 3. Containing one hundred and two farmers' scalps, eighteen of them marked with yellow flames, to signify that they were burned alive.
Package 4. Containing eighty-eight scalps of women, hair long and braided, to show that they were mothers.
Package 5. Containing one hundred and ninety-three scalps of boys of various ages, on small green hoops.
Package 6. Two hundred and eleven girls' scalps, big and little, on small yellow hoops.
Such was the stuff of which English royalists were made in the "days which tried men's souls."

Something New!!
MR. CHARLES AUSTIN, the celebrated Reed maker has just completed his new Organ Reed, upon which he has labored for the last five years and expended more than \$10,000 of his own money. This reed is different from all others in the composition, being much larger and having more power. It is intended for Church and Parlor Organs as manufactured by Messrs. Austin & Co. These Organs have the upright (Organ) action, and are of the highest quality. The price will range from \$175 to \$800, depending upon the finish of the case. To churches in want of an instrument of that value we would say that they have more power than any common Organ costing \$500.
J. F. Pease & Co., Janesville, Wis., are interested in the manufacture and sale of these instruments, and are the only persons through whom they can be had. They will have one or more for sale as early as Sept. 10th, and after that date an assortment as soon as they can be manufactured.

ANOTHER ARRIVAL.—Yesterday the telegraph gave an alarm that a report was ready for us, but failed to deliver anything as soon as it was announced that we were ready for it. A private dispatch to the Milwaukee Sentinel, dated Sept. 4th, reports the arrival of the steamship Pacific, with news of a decline in breadstuffs, flour having fallen 6d, wheat 3d, and corn 6d. The capture of Bismarck is confirmed. The Austrians were entering Wallachia. The cholera was making awful ravages among the troops, the allied army having lost 12,000, and the Russians a still greater number. We suppose the report we failed to get contained the particulars of the events indicated by this dispatch.

The Pennsylvania free democratic convention met at Harrisburg August 30th, and passed resolutions withdrawing the state ticket, and recommending Judge Pollock, the whig candidate, for governor.

The whigs of New Jersey are preparing for such a union as their brethren in many other states have effected. This gives great concern to the railroad monopoly, Nebraska, Com. Stockton "democracy" of that little state, and their wailings are audibly given through their presses. To one of these, which assumes to "know the people of New Jersey" and "feels confident that hundreds of the old fashioned Clay whigs of the state, will sooner vote the democratic ticket at the next election, than lend their countenance to the mad schemes of abolition fanatics," the Albany Journal well replies: "The mad schemes of abolition fanatics" must mean the election of members of congress pledged to vote for the admission of no more slave states, as this is the only "scheme" New Jersey whigs have yet entered into.

If this surprises the Democrat, it may as well prepare to be frequently astonished this fall. For upon that platform the whig party in all the northern states is steadily taking ground, without, so far as we hear, a single dissenting voice.

Its appeal is ill-timed to the "old fashioned Clay whigs," who agree in Mr. Clay's declared determination "never to vote to extend slavery over a foot of territory where it does not exist." If the "democracy" can find any other "fashion" of "Clay whigs," they are welcome to them, in New Jersey and out of it.

CONNECTION.—Printer's devil, with a pull at his forelock, and scraps of his hoof, begs pardon of his friend, the "Book Items" man, for a "lapus linguae" of the type yesterday.

The sentence referring to the "Nile Notes of a Howadij," compared with B. T.'s book, should read as follows:—"In reading the fanciful and poetically philosophical," etc., etc., instead of "this fanciful," etc.

There were some other inaccuracies, all of which will be avoided, the devil aforesaid hopes, when he becomes better acquainted with the chirography of the items man—which renders us, that the supply of the books aforesaid at Sutherland's, is vanishing like plumb cake before the appetite of boarding school girls home in vacation. *Verbum sap.*

The first term of the Collegiate Institute will commence this Wednesday morning, at 10 o'clock, with appropriate exercises. Remarks will be made by different persons in regard to the educational interests of this city. Citizens generally, are invited to be present.

Senator Douglas is reported to have engaged to speak in Milwaukee about a fortnight hence.

The boring in the Artesian well at the sugar refinery, St. Louis, has already reached the enormous depth of two thousand and two hundred feet. Thus far the search for pure water has been unsuccessful; but the work goes on. Belcher's energy and perseverance will endure until the centre of the earth is reached.

The Vermont election took place yesterday, and the Maine comes on next Monday. From both states we shall be grievously disappointed if good reports do not come.

R. R. EARNINGS FOR AUGUST.—The earnings of the M. & W. R. R., for the month of August, just past, are as follows:

Freight,	\$19,332 53
Passengers,	13,087 81
Total,	\$32,420 34
Earnings for Aug. 1863:	
Freight,	\$9,521 28
Passengers,	8,754 88
Total,	\$18,276 16

The earnings of Aug. 1864, show an increase of nearly 100 per cent. over those of the corresponding month of 1863.

MASS CONVENTION.—A convention of the Janesville assembly district assembled at the court house, Tuesday, Sept. 5th, under a call of the republican county committee, to appoint two delegates to the congressional convention to be held at Mineral Point on the 13th inst.

On motion, Wm. M. TALLMAN was called to the chair and Chas. Holt appointed secretary.

On motion, JOSEPH BAKER and JOSEPH A. SLEEPER were chosen special delegates, and Wm. M. TALLMAN and GEORGE H. WILLISTON as substitutes.

The convention then adjourned.

CHAS. HOLT, Sec'y.

NOT BAD.—We clip the following capital hit from an exchange:

If you wish to keep your town from thriving, turn the cold shoulder to every young mechanic or beginner in business, look upon every new comer with a scowl. Discourage all you can; if that won't do, desert his work and rather go abroad for wages of his hand than give him your money. Last, though not least, refuse to patronize the will go paper. "Then go to seed."

[Reported for the Janesville Gazette.]
WISCONSIN ANNUAL CONFERENCE OF THE M. E. Church.

FIFTH DAY.
MONDAY, Sept. 5th, 1864.

Conference convened at 8 o'clock, bishop Morris in the chair. The session was opened with reading the scriptures, singing and prayer, by B. yd Phelps.

The minutes of the last session were read, corrected and approved.

Bishop Morris presented a communication on the subject of a Biblical Institute, which was read and referred to a special committee.

A circular and exhibit from the Western Book Concern, was read and filed.

Rev. Mr. Poe gave an account of the condition of the Western Concern, also of the church suit, after which the following resolution was passed.

Resolved, That this conference fully approve the course of the agents of the Western Book Concern, in submitting the final decision of the painful controversy with the church south, to the supreme court of the United States.

The conference then resolved itself into a tract society. Quite a liberal contribution was made by the preachers, who pledged a large amount to be collected during the present year. After electing officers for the ensuing year, the society adjourned.

The conference invited the transfer of Chas. P. Bragdon from the New England, to this conference.

Delos Hale was received on trial. The remainder of the session was occupied by business of but little interest to the public, so it will not be reported.

Various notices were given out, when conference adjourned with a benediction.

ELI C. JONES, Conf. Reporter.

SIXTH DAY.

TUESDAY, September 6th, 1864.

Conference convened at 8 o'clock, bishop Morris in the chair.

The session was opened with reading the scriptures and prayer by Rev. Mr. Callender. The minutes of the last session were read, corrected, and approved.

Jesse Pardon was granted a superannuated relation.

Samuel Anderson, a Norwegian missionary, was continued on trial.

Robert Delap was continued on trial.

Conference then took up the question, who are received on trial:—Joel Howd, Peter Lang, Dwight Keddor, Harvey Orcutt, Alfred G. Cooley, Wm. R. Jones, Holver Gardner, O. B. Knudson, Stein Steinson, Neals Olson, D. B. Anderson, Leander Hallack, Geo. F. Hilton, Horace B. Crandall, Lewis Bell, David O. Van Slyk.

The committee on education then made their report in part, as follows:

The committee on education then made their report in part, as follows:

I. In reference to the Lawrence university. The committee represented the institution as in a prosperous condition, the number of students being a table of that of any previous year. The building for the preparatory department is completed; the building for the college proper, a noble edifice, is in the process of erection, and will be, in part, ready for occupancy very soon; and steps are now being taken to erect a suitable building for the female department, which is much needed. Much has been done towards a permanent endowment for the university, and an able faculty has been constituted. The necessity of regarding this institution as exclusively the Methodist college of Wisconsin, and securing for it the undivided patronage of the conference and the church, was strongly impressed upon the minds of the ministers, and duly appreciated by them. In conclusion the committee recommended the re-affirmation of the following resolutions:

1st. Resolved, That the Lawrence university, located at Appleton, including both the preparatory and collegiate departments, is emphatically the institution of this conference, to the support of which we will devote our untiring energies.

2. That we learn with peculiar pleasure, through our board of visitors, of the successful efforts that have been made within the past year in raising funds, and in otherwise imparting maturity, vigor and usefulness to the institution.

3. That we have full confidence in the ability and integrity of both the board of trustees and the faculty of the university, and that we will use every suitable means to urge its claims and patronage upon the attention of the people of our respective churches.

4. That we concur in the recommendation of the visiting committee to the Lawrence University, for the appointment of Rev. J. S. Prescott as agent for that institution.

5. That each preacher in charge of circuits and stations shall preach or cause to be preached, at least once in the year, a sermon on education, at each principal appointment.

II. In reference to the North Western University, located about 12 miles from Chicago. The committee recommended the adoption of the following preamble and resolutions:

Whereas, In the original application made to the Wisconsin annual conference for the appointment of trustees and visitors to the North-western University, the claims of the Lawrence University to the undivided patronage and support of this conference were expressly stated, and that neither men nor money should, in aid of said contemplated university, be sought within the bounds of this conference, nor should the trustees of the said Lawrence University in any manner be interfered with; and the co-operation of this conference in the appointment of trustees and visitors to the said North-western University was only asked for the purpose of le-

gally organizing the board, and preventing a delay which otherwise would have been unavoidable, before the charter could have been so amended as to enable them to proceed to action. And whereas the connection so established, and only intended as nominal, has, in the judgment of this conference operated prejudicially to the interests of the Lawrence University, both pecuniarily and otherwise, therefore,

Resolved, 1. That the Wisconsin annual conference decline any further election of trustees or visitors to the North-western University.

2. That the North-western University having received the benefits of the above recited agreement, by the aid afforded in the organization of its board and otherwise, cannot now, in good faith, permit its agents to traverse our territory, either for the purpose of selling scholarships or raising funds for its endowment and support.

3. That we wish peace and an interchange of fraternal relations to exist between the Lawrence and the North-western Universities; but that the best way of securing that object, is for each to pursue its work within its own bounds.

Dr. Hinman, President elect of the North-western University, opposed the adoption of the preamble and resolutions; and proposed, as a substitute, that the agents of the North-western University be permitted to canvass the southern portion of Wisconsin for the sale of scholarships, with the understanding that the agents of the Lawrence University should have the privilege of doing the same thing in northern Illinois. In a speech of considerable ability and length he endeavored to show the propriety and mutual advantage of this measure. He contended, however, that the balance would be greatly in favor of the University at Appleton, as that institution had, in addition to its collegiate department, a preparatory department, and admitted students of both sexes; while the Chicago Institution had no preparatory department, and admitted only males.

He was answered by Dr. Cook, President of the Lawrence University, who, in a very able speech, proved the futility of Dr. Hinman's position, and exposed the sophistry of his argument—showing very conclusively that the nominal relation which this conference had sustained to the North-western University had operated very much against the interests of the Lawrence University—that it had given plausibility to the assumption, on the part of some of the friends of the North-western University, that this institution was the University of the Northwest—that Wisconsin belonged to them, and that the institution at Appleton was only a satellite or tributary to the Chicago College—that it had turned away into other channels more than ten thousand dollars which the Lawrence University otherwise might have received; and that if Dr. Hinman's proposition was accepted, it would in the end degrade the Lawrence University to a mere primary school.

After considerable discussion, among different members of the conference, the preamble and resolutions were passed unanimously.

The hour of adjournment having arrived, the session was closed with prayer, by Rev. Mr. Randall.

THE CHESTER FACTORY OUTRAGES.—SIXTY-SIX DEVELOPMENTS.—A "Carson Temperance League" was formed last spring at Chester Factory village, in the western part of this state, and soon after it had commenced active operations the property of its members began to suffer depredations. The Methodist church was blown up, David Cannon's barn was set on fire, trees were extensively girdled, and various horses were found minus their appropriate dorsal appendages, or painted zebra-wise.

In this strait the officers of the League applied to the police of Albany, who sent to their assistance a couple of skillful officers, named Chamberlain and Vosburgh. These men entered into the spirit of things, made free in the lar room, passed themselves off for sporting characters, denounced the Carson League, went to cock-fights, &c., and in a short time were considered by the suspected and unsuspecting parties they were ensnaring as "regular trumps."

Chamberlain even went so far in his dangerous schemes, as to have a regular preconcerted set-to with the secretary of the League, and was punished by fine for the assault. After this he was regarded by all not in the secret as the master spirit of the rum party, and as such frequently denounced by the staid townsmen.

At last Chamberlain was warned by his new found friends to leave the place, as they were about to blow up the secretary's grist mill. Chamberlain obeyed the request, but sent word to the League that on such a night four might be expected to rise. A watch was accordingly set on the mill, and one man and a 25 pound keg of powder, with a fuse attached, were taken into custody; but the haul was not yet large enough, and the affair was kept still until the operators had recovered from their fright, and again commenced operations.

A few days since a descent was made upon the haunt of the gang, and eight persons named E. Hubbard, 3d, Otis Hamilton, B. L. Kingsley, A. L. Richards, Lewis Gibbs, Rufus Case, John Gaudner, and Albert Nooney, were arraigned before a magistrate in Springfield, on complaints embracing each of the principal outrages committed in Chester. They were in high spirits when first arrested, but on learning the shrewd deception which had been practised upon them by their quondam friends, they became "quite chop-fallen." As many persons of standing are also under suspicion, who probably fear further disclosures, there was no difficulty in obtaining bail, and the accused are now at liberty, awaiting trial at the next term of court.

The Prairie du Chien Courier, an independent paper, but strongly inclined to favor the democratic side of politics when there is any possible chance of doing so, makes the following plain, common sense remarks about the veto of the river and harbor appropriation bill &c.—*Janesville Gazette.*

Strongly inclined to favor the democratic side of politics when there is any possible chance, are we? Some of the members in good standing of the democratic church here, have their doubts on that subject, neighbor. We would like to remove those doubts if the democratic administration would only throw out one of the chances above alluded to. Of president Pierce & Co., why won't you give a fellow a chance now and then. We are very anxious to praise some act of yours, but you studiously put it out of our power.—*Prairie du Chien Courier.*

A SUCCESSFUL PLEA OF SICKNESS.—A young lad, not more than eleven years of age, named Patrick Houston, was arrested some days since and lodged in jail, charged with rifling the money draw of John McCaffrey, at the Little Basin. He was to have been tried yesterday at the court sessions. At the opening of the court he was brought in with the other prisoners, and after being there a short time, he complained of being ill and unable to sit up. He was conveyed back to jail, a physician sent for, who administered to him hot drops. His mother acted as nurse, and she pronounced it a case of cholera, when she commenced rubbing the lad and administering the usual remedies as are proscribed in such cases. He continued to grow worse under the treatment, when his cure was pronounced a hopeless one. An officer was despatched from the jail to the courtroom, and upon his representations to the district attorney, that Patrick could not live an hour, he moved that a *nolle prosequi* be entered in his case, which was accordingly granted by the court.—The tidings of his discharge were speedily conveyed to the mother, who took up the wayward boy in her arms, he pretending to be unable to walk, from the jail. She carried him a short distance, until they were beyond sight of those standing on the steps leading to the jail, when the derring boy sprang from her arms and ran off in great glee. The trick was handsomely played off by both parties, and when told in court the duped officer appeared to be deeply mortified.—*Albany Journal.*

THE FIRES WEST.—We learn from the Cleveland Plain Dealer that the pine swamp west of Hudson has been burning for several weeks, and within a few days has done an immense amount of damage. Whole meadows to the amount of several hundred acres have burnt out four feet deep, and will, of course, when the swamp fills with water, become a lake. The fire would commence eating under, till whole acres were undermined, when a vent would occur, through which the flames would rush out for many feet in height and the whole ground, timber and all, would be consumed. Large trees would fall in a mass and be burned to ashes. President Pierce, of the Hudson college, was in the vicinity when he saw some trees apparently on solid ground, but a short distance from him, commence tumbling, when he started to run. They continued to fall behind him, and so near was he at one time to the danger, that the limbs of a falling tree brushed him. The inhabitants are in the utmost consternation, not knowing where or when this terrible state of things will end. Like calamities never before visited this country, and unless we soon have rain, the situation of many neighborhoods will be worse than if they lived in the midst of earthquakes. God grant rain may soon come.

The Philadelphia Ledger states that a deposit was made at the mint on Saturday last, of about five thousand dollars worth of the melted gold taken from the recently raised wreck of the unfortunate steamer Erie, which was burnt and sunk on Lake Erie some thirteen years ago.—There was found mixed with the melted money part of an old German lock, the material parts of which were in a pretty good state of preservation.

The railway across the Apennines, in Italy, extending from Turin to Genoa, is said to have the greatest grade in Europe. The high grade is near the town of Gleni, the ascent being one hundred and eighty feet to the mile.—Two locomotives drawing a train of six loaded gravel cars, weighing altogether one hundred tons, ascended the grade at a time when the rails were exceedingly wet and slippery, at a speed of nineteen miles per hour. This is a feat unprecedented in the annals of railway history.

The library of Gen. Davis, at Troy, was entirely destroyed on Friday last during the great fire. His collection of political works, pamphlets and papers, numbering over 4000 volumes, one of the most rare and valuable in the country, was entirely destroyed. He had been many years making the collection, and in it were documents that cannot be replaced.

ANTIQUATED.—In 1822 Lewis Withrop caught a terapin on the farm of Zadock Richards, in Jackson county, Ia, and cut his name and date on its back. This singular animal has been seen on the same farm a number of times every year since; and only a few days ago it was examined, and the name and date carved on its back are quite plain. Though thirty-two years have elapsed since the mark was made, the animal has seemingly undergone no change. He plods along as ever, showing no more signs of old age than he did when first seen.

STEAMBOAT ACCIDENT.—An accident happened to the machinery of the steamboat Hendrick Hudson as she was leaving her pier, in Albany, on Friday evening, with 400 passengers, and she was towed to New York by the steamboat Troy, reaching her dock on Saturday afternoon. Indignation meetings were held and resolutions passed on both boats, in which their officers were severely censured,—those of the Hendrick Hudson for refusing to give the passengers their meals, or allow them to land, and those of the Troy for converting a passenger boat into a tow boat, causing a day's delay, and serious loss to some of the passengers. It was said the machinery was known beforehand to be injured, and that there was a previous understanding between the two boats.

Advices from Tennessee, Alabama and Georgia speak favorably of the corn crops, and throughout most of the western states there have been rains, which have greatly improved the condition of the crops. The indications now are, that taking the country through, the yield will not be much below a fair average.

COSTLY.—In the discussion of the navy appropriation bill in the senate, the fact was disclosed that the expenses of chartering and supplying fuel, etc., for a steamer to suppress filibustering in Lower California amounted to \$113,638. The rate paid for the boat was \$1,600 a day, and the coal cost \$13 per ton! The senate rejected an amendment to pay the amount it being more than the whole value of the steamer.

It is expected that before the first day of January next, not less than twenty thousand men from the free states will be in Kansas or on the way thither. Mr. Thayer of Worcester, an active member of the emigrant aid society, recently stated that an emigrant can be sent from Boston to Kansas for \$25, and this price will be reduced. Where the emigrants carry heavy chests of mechanics' tools, not an agent on the line would take compensation. "All the agents," said Mr. T., "are on our side."—*Boston Atlas.*

ANOTHER STAR.—Another star is soon to be added to the galaxy of our parti-colored constellation. The people on the southern shore of Lake Superior are again agitating the question, of forming a new state out of portions of Michigan, Wisconsin, and Minnesota, to be called "Superior." About two years ago a similar project was unsuccessful; but with a strong anti-slavery majority in the next congress we see nothing to prevent the addition of another star to our band of northern states; one that will shine with no dubious or reflecting light, but one who will be a beacon light on the outer wall of freedom's temple.

NEW GOODS!

\$15,000 Worth of

BOOTS AND SHOES

JUST RECEIVED AT THE

Wisconsin Boot & Shoe Store.

I AM now receiving one of the largest and finest stocks of Boots and Shoes that I have

ever before brought to Janesville, and what is finer than all the rest, I can sell them at lower prices than I have ever sold before, notwithstanding the great advance in the East Market. My assortment of

Little Kids Shoes,

in particular, are no less desirable than the former, cannot be equaled in the State, both for style and durability, being all made to order, and in such a manner that I can warrant every article I sell, with the understanding at all times, that if they do not come up to the warrant, they shall be accepted free of charge.

GENTLEMEN'S WEAR.

In this line I know beyond a doubt that I can show you a finer assortment and at better prices by twenty-five per cent. than can be found at any of the side shops Dr. D. has ever visited. I want to say distinctly understood that I make the BOOT AND SHOE TRADE MY WHOLE STUDY, and that I *Luv More, Sell*

Manufacturing. I want to say a few words to you in regard to my Manufacturing Department, to wit: That I am now engaged more extensively in the manufacturing business, and probably am selling more custom work than all the rest of you would be able to do. I have a large stock of goods that I use better Block, being entirely of Eastern tannage, which every one knows is worth twenty-five per cent more than the common western tanned leather; and what is a better reason and of greater importance, I can sell it.

Sell my Custom Work at Much Lower Prices, and at the same time sell you a better article than you can get at any other place. I have a large stock of all the things that I use better Block, and I will sell at a very reasonable one-third, in buying my Block

cast and in such large quantities, I of course save a very large per cent, and thereby can sell at lower prices and at the same time make my profit.

I want to state I have secured the services of MRS. BUCKINGHAM, who has formerly been engaged in the manufacturing business on the west side of the River, and who is known by every one to be the best manufacturer in the city; and if we don't get you our order earlier than the 15th inst., we cannot guarantee we will forfeit our money and our reputation, and I pledge you my word that this is *no small forfeit*.

Leather and Findings.

I have just received over \$8,000 worth of the very best brands of **English Sole & Tipper Leather**, of the largest and best quality, and of the following brands:—**PHILADELPHIA KIP and FRENCH CALF SKINS**, together with a full assortment of **MOROCCON** of every kind, which I will sell at

Precisely Milwaukee and Chicago Prices.

I have constantly on hand also a large assortment of

all kinds of FINDINGS, LASTS, ROOT TREES, CRIMPS, etc., etc., all of which will be sold at the same rates.

I request the attention of manufacturers in town as well as in the country to the fact that I can make it an object for you to buy of me. At least, I can sell you a much superior article to that which you get of the pedlers.

TO THE LADIES,

I would say that I am under very great obligation for the partiality you have shown me, in always procuring your understandings from me, and I now publicly promise and swear that I will make every one of you who may be entitled to the same a present of a handsome pair of CACKS, when I shall have closed up my shoe-selling career. I would say further, that I am prepared to get up to order any style of work you wish, at low rates.

Yours respectfully,

J. R. DINOCK, Proprietor,
H. J. DINOCK, Jr., Proprietor.

NEW GOODS!
\$15,000 Worth of

BOOTS AND SHOES

JUST RECEIVED AT THE

Wisconsin Boot & Shoe Store

I AM now receiving one of the largest and finest stocks of Boots and Shoes that I have ever before brought to Janesville, and what is finer than all the rest, I can sell them at lower prices than have ever sold before, notwithstanding the great advance in the Eastern Market. My assortment of

Ladies Fine Shoes,

In particular, I have no hesitation in saying, cannot be equaled in the State, both for style and durability, being all made to order, and in such a manner that I can

warrant every article I sell, with the understanding
all times, that if they do not come up to the warrant
they shall be mended free of charge.

GENTLEMEN'S WEAR.

In this line I know beyond a doubt that I can show you a finer assortment and at better prices by twenty five per cent. than can be found at any of the shoe shops or Dry Goods stores about town. I want it distinctly understood that I make the **BOOT AND SHOES** TRADE MY WHOLE STUDY, and that I *Luv More, Sells More and knows more about the trade*, than the whole pile of petty dealers put together. And I know all that I can make known to you, and I am sure you will be in luck to have me as well as carry on the business in Jacksonville to buy their Boots and Shoes of me for the more I sell the smaller profits I can sell at.

Manufacturing.

I want to say a few words to you in regard to the Manufacturing Department, to wit: That I am now engaged more extensively in the manufacturing business.

and probably am selling more custom work than all the shops about town put together, simply for these reasons: First, because of my location, by the side of the tannage, which every one knows is worth twenty-five per cent more than the common western tanned leather; and what is a better reason and of greater importance, I can

Sell my Custom Work at Much Lower Prices and at the same time sell you a better article than you can get at the shops, for this reason, which you may all see is a very palpable one, that in buying my stock east and in such large quantities, I of course save a very large per cent, and thereby can sell at lower prices and at the same time make my profit.

I want to state further that I have secured the ser-

ces of Mr. LEECHMAN, who has formerly been engaged in the manufacturing business on the west side of the River, and who is known by every one to be the best manufacturer in the city; and if we don't get a

I have just received over \$8,000 worth of the very best brands of **Eastern Sole & Upper Leather** also, a very large assortment of **FRENCH** and **PHILADELPHIA KIP** and **FRENCH KALF SKINS**, together with a full assortment of **MOROCCON** of every kind, which I will sell at

Precisely Milwaukee and Chicago Prices

I have constantly on hand, also, a large assortment of all kinds of **HINDS, LASTS, BOOT LOTS, CRIM**

etc., etc., all of which will be sold at the same rates. I request the attention of manufacturers in town as well as in the country to my stock, as I think I can

TO THE LADIES,

I would say that I am under very great obligation to the partiality you have shown me, in always procuring your understandings from me, and I now publicly profess and swear that I will make every one of you may be entitled to the same a present of a handsome pair of CACKS, when I shall have closed up my shoe selling career. I would say further, that I am prepared to get up to order any style of work you wish, at low rates.

Yours respectfully,
J. B. DINGOCK, Proprietor,
BREWSTER & CO.

By the way, don't forget the location of the Institution, three doors above the Post Office, Janesville, Wisconsin.
